This information is current as of January 14, 2018.
CONTENTS

The Relationship between a Serum and Tissue Inhibitor and the Rheumatoid Disease Agglutinating Factor. J. D. GRAY ............................................. 1

Immune Degradation in Passively Sensitized Mice. I. Degradation of Antigen as a Function of the Amount of Antigen and Antibody Used. GERONIMO TERRES AND W. WOLINS .......................................................... 9

Studies on the Prevention of Mumps. VII. Evaluation of Dosage Schedules for Inactivated Mumps Vaccine. WERNER HENLE, MARY N. CRAWFORD, GERTRUDE HENLE, HUMBERTO FAZ TABIO, FRIEDRICH DEINHARDT, ANGEL GUERRA CHABAU AND IRVING J. OLSHIN ............................................................................................. 17

Effects of Cysteine and Acetic Anhydride on the Antigenic and Catalytic Sites of Dog Intestinal Alkaline Phosphatase. MAX SCHLAMOWITZ .......................................................... 29

Studies on Organ Specificity. VI. Cross-reactions of Thyroid Autoantibodies with Thyroids of Other Species. NOEL R. ROSE AND ERNEST WITEBSKY .................................................................................................................. 34

Studies on Organ Specificity. VII. Production of Antibodies to Rabbit Thyroid by Injection of Foreign Thyroid Extracts. ERNEST WITEBSKY AND NOEL R. ROSE ...................................................................................... 41

Studies of Blood Group Antibodies. II. Fractionation of Rh Antibodies by Anion-Cation Cellulose Exchange Chromatography. NEVA M. ABESELSON AND ARNOLD J. RAWSON ................................................................. 49

Specific Hemagglutinins in X-Irradiated, Bone-Marrow Treated Mice Following Differential Immunization of Host and Donor. RICHARD M. GARVER, GEORGE W. SANTOS AND LEONARD J. COLE ........................................................................................................... 57

Antigenic Stimuli for Transplantation Immunity to Rat Bone-Marrow Heterografts in Lethally X-Irradiated Mice. GEORGE W. SANTOS, LEONARD J. COLE AND RICHARD M. GARVER ............................................................................................................. 66

Measles Antibodies in the Population of New Haven, Connecticut. FRANCIS L. BLACK ............................................................................................................................. 74

An Immunochemical Study of Streptococcal Diphosphopyridine Nucleotidase. M. GERALDINE PACE AND A. M. PAPPENHEIMER, JR ...................................................................................................................... 83

Effect of Bacterial Endotoxin on Resistance of Mice to Viral Encephalitides. Including Comparative Studies of the Interference Phenomenon. ROBERT R. WAGNER, RUTH M. SNYDER, EDWARD W. HOOK AND CHARLES N. LUTTRELL ................................................................................................................................ 87

Kinetics of Equine Complement. MYRON A. LEON AND ÅKE NORDÉN ............................................................................................................................. 99

Hemaggululation Test in Tularemia. Results in 56 Vaccinated Persons with Laboratory Acquired Infection. N. David Charkes........................................ 213

NUMBER 3, SEPTEMBER 1959
The Antigen-Antibody Reaction. III. Theoretical Considerations Concerning the Formation, Location, and Curvevture of the Antigen-Antibody Precipitation Zone in Agar Diffusion Plates, and a Method for the Determination of Diffusion Coefficients of Antigens and Antibodies. Frederick Aladjem, Robert W. Jaross, Rita L. Paldino and J. A. Lackner ................. 221
Gel Diffusion Studies of Cross Reacting Antibody. Robert K. Jennings .......................................................................................................................... 237
Titration of Herpes Simplex Virus in One-day Eggs by an Improved Inoculation Method and Its Application to the Serum Neutralization Test. Kamesaburo Yoshino, Hirokazu Taniguchi and Sadako Taniguchi ........................................... 246
The Relationship between Delayed Hypersensitivity and Circulating Antibody Induced by Proteins in Guinea Pigs. Stewart Scll and William O. Weigle .................................................................................................................................. 257
Kinetics of Human Complement. IV. Kinetics of the Inactivation of the C3 Complex by Hydrazine. A. B. Taylor and Myron A. Leon ........................................................................... 284
Kinetics of Human Complement. V. Decay of the Intermediate Complex EAhuC'A. Myron A. Leon .................................................................................................. 291
The Resistance-Promoting Activity of Endotoxins and Other Microbial Products. I. Their Effect on *Salmonella typhosa* Infections of Mice. Edward W. Hook and Robert R. Wagner .... 302
The Resistance-Promoting Activity of Endotoxins and Other Microbial Products. II. Protection against the Neurotoxic Action of Influenza Virus. Edward W. Hook and Robert R. Wagner ... 310
Biologic Activity of Soluble Antigen-Antibody Complexes. V. Change of Optical Rotation by the Formation of Skin Reactive Complexes. Kimishige Ishizaka and Dan H. Campbell .......... 318
Immunoechemical Studies with Human Albumin and y-Globulin of Placental Origin. D. Subrahmanyan and Paul M. Maurer .............................................................................. 327

NUMBER 4, OCTOBER 1959
Studies on a Skin-fixing, Reagin Blocking, Antipneumococcal Antibody. Nicholas C. Paltcruck and John A. Flick .............................................................................. 339
The Role of Multiplication of *Pasteurella pestis* in Mononuclear Phagocytes in the Pathogenesis of Flea-borne Plague. Dan C. Cavanaugh and Raymond Randall ................................................................................ 348
Further Studies on the Effect of Ca++ on the First Component of Human Complement (C'1). Frank E. Young and Irwin H. Lepow .............................................................................. 364
The Effect of Adjuvants on Antituberculosis Vaccination with Live Mycobacteria. Hubert Bloch and Ivo Ferreira .............................................................................. 372
Effect of Temperature on the Growth Curves of Herpes Simplex Virus in Tissue Culture. Clayton E. Wheeler and Charles M. Canby ........................................... 392
Quantitative Studies on the Antigen-Antibody Reaction by the Monolayer Technique. II. Desorption Experiments. Tomio Ogata, Taro Tachibana, Kan Suzuki and Teruko Suzuki.... 397
Differences in Stability of Antigen-Antibody Complexes Formed with Poliovirus and Acute and Convalescent Phase Human Sera. K. T. Brunner and R. Ward. ............. 405
The Properdin System and Immunity. IX. Studies on the Purification of Human Properdin. Earl W. Todd, Louis Pillemer and Irwin H. Lepow .............................................. 418
Measurement of Herpes Simplex Virus by the Plaque Technique in Human Amnion Cells. Suydam Osterhout and Igor Tamm ....................................................... 442
Differences in Primary and Secondary Immunizability of Inbred Mouse Strains. Johannes Ipsen. ... 448

NUMBER 5, NOVEMBER 1959

Acquired Immune Tolerance in Mice to Crystalline Bovine Serum Albumin. Geronimo Terres and Walter L. Hughes ................................................................. 459
Mortality Enhancing Polypeptide Constituents from Pseudomonas pseudomallei. H. B. Levine, O. G. Lien and R. L. Maurer ................................. 468
Homotransplantation Immunity and Tolerance in the Bullfrog. W. H. Hildemann and R. Haas. ............................................................. 478
Studies on Herpes Simplex. X. The Effect of Corticosteroids on Herpetic Keratitis in the Rabbit. E. Jawetz, M. Okamoto and M. Sonne ...................... 486
The Specificity of Antibody Response in Typhus Fever. Its Alteration during Murine Typhus Infection as a Result of Previous Exposure to Epidemic Typhus Antigen. R. A. Goldwasser, C. C. Shepard, M. E. Jordan and J. P. Fox ........................................ 491
Antigens of Bordetella pertussis. I. Activities of Cell Walls and Protoplastm. J. Munoz, Edgar Ribi and Carl L. Larson ............................................... 496
Studies on Variation in Virulence of Poliomyelitis Virus. IV. The Effect of 5-Bromo-uracil and Stable Cell Lines. C. P. Li ...................................................... 511
Comparative Immunologic Studies of Cell Structures Isolated from Salmonella typhosa. W. F. Carey and L. S. Baron .................................................. 517
The Agglutination of L Cells by Vaccinia Virus. II. The Cell Virus Interaction Related to the Agglutination Reaction. Arthur Brown, Sami A. Mayyasi and Julius E. Officer .................. 521
Persistent Infection of HeLa Cells with Meningopneumonitis Virus. G. P. Manire and G. J. Galasso .............................................................. 529
Immunoochemistry of Synthetic Polypeptides and Polypeptidyl Proteins. I. Qualitative Studies on the Modified Proteins. Mark A. Stahmann, Claude Lapresle, Dorothy J. Buchanan-Davidson and Pierre Grabar .................................................. 534
Immunoochemistry of Synthetic Polypeptides and Polypeptidyl Proteins. II. Quantitative Studies on the Modified Proteins. Dorothy J. Buchanan-Davidson, Eva E. Dellert, Steven E. Korn-guth and Mark A. Stahmann .................................................. 543
Immunoochemistry of Synthetic Polypeptides and Polypeptidyl Proteins. III. Antigenicity of the Synthetic Polypeptides. Dorothy J. Buchanan-Davidson, Mark A. Stahmann, Claude Lapresle and Pierre Grabar .................................................. 552
Immunoochemistry of Synthetic Polypeptides and Polypeptidyl Proteins. IV. Immunologic Reactions of the Synthetic Polypeptides. Dorothy J. Buchanan-Davidson, Mark A. Stahmann and Eva E. Dellert .... 561
