84 (1)

This information is current as of November 13, 2017.

Why The JI?

- **Rapid Reviews!** 30 days* from submission to initial decision
- **No Triage!** Every submission reviewed by practicing scientists
- **Speedy Publication!** 4 weeks from acceptance to publication

*average

**Subscription**  
Information about subscribing to *The Journal of Immunology* is online at:

THE JOURNAL OF IMMUNOLOGY

Vol. 84, No. 1, January, 1960

CONTENTS

Some Aspects of Intracellular Infections. JOSEPH E. SMADEL .................................................. 1
Purification of Rabies Antibodies in Horse Serum and Diagnostic Importance of the Fluorescent Antibody Technique. M. ETCHEBARNE, P. G. BERNAL AND G. R. LEYTON ........................................................................ 6
Mixed Bacterial Infections in Relation to Antibiotic Activities. IV. Shigella-Escherichia coli Infections. DVORA RAKOVER FRIEDMAN AND SEYMOUR P. HALBERT ........................................ 11
A Guinea Pig Potency Test for Adenovirus Vaccine. LEONARD N. BINN AND MAURICE R. HILLEMAN ........................................................................ 20
Electrophoretic Studies on the Serum Protein Pattern of the Germfree Rat and Its Changes upon Exposure to a Conventional Bacterial Flora. BERNARD S. WOSTMANN AND HELMUTH A. GORDON .................................................. 27
Physical and Chemical Analysis of Endotoxin from Salmonella enteritidis. EDGAR RIBI, BILL H. HOYER, KELSEY C. MILNER, THEODORE D. PERRINE, CARL L. LARSON AND GRANVILLE GOODE ................................. 32
Studies on Antibody Production by Spleen Explants Maintained in Vitro. MARIANO F. LA VLA, STANLEY A. URIU, AND LLOYD A. FERGUSON ............................................................. 48
Antistreptolysin O Titer in Cord Blood. R. ROZANSKY, A. BATAT AND S. BERCOVICI ............................................................. 54
Studies in Immunization. I. The Effect of Route of Injection of Bovine Serum Albumin in Freund Adjuvant on Production of Circulating Antibody and Delayed Hypersensitivity. SIDNEY LESKOWITZ AND BYRON H. WARSMAN ........................................................................ 58
The Effect of Irradiation on Natural Hemagglutinins of Mice. LOTTIE KORNFIELD AND C. PHILLIP MILLER ........................................................................ 73
The Effect of Irradiation on Natural Bactericidins of Mice. LOTTIE KORNFIELD, CAROLYN W. HAMMOND AND C. PHILLIP MILLER ........................................................................ 77
The Upper Limit for the Size of the Human Antidextran Combining Site. ELVIN A. KARAT ........................................................................ 82
Studies of a Complement-Fixing Antigen from Group A Streptococcal L Forms. I. Preparation and Preliminary Tests in Rabbits and Man. YORK E. CRAWFORD ........................................................................ 86
A Modified Technique of Immunelectrophoresis Facilitating the Identification of Specific Precipitin Arches. ELLIOTT F. OSSERMAN ........................................................................ 93
The Response to Influenza Vaccines as Determined by Levels of Complement-Fixing Antibody in the Acute-Phase Sera of Patients with Respiratory Disease. JAMES O. CULVER, EDWIN H. LENNETTE, GEORGE NAVARRE AND C. HENRY KEMPE ............................................................. 98
Studies of Aggregated γ-Globulin. I. Sedimentation, Electrophoretic and Anticomplementary Properties. CHARLES L. CHRISTIAN ........................................................................ 112
Studies of Aggregated γ-Globulin. II. Effect in Vivo. CHARLES L. CHRISTIAN .................. 117
