THE JOURNAL OF IMMUNOLOGY

Official Journal of
The American Association of Immunologists

CONTENTS

Immunochemical Studies on Cross-Reactions of Antipneumococcal Sera. I. Cross-Reactions of Types II and XX Antipneumococcal Sera with Dextran and of Type II Antipneumococcal Serum with Glycogen and Friedländer Type B Polysaccharide. JOEL W. GOODMAN AND ELVIN A. KABAT ........................................... 333

Immunochemical Studies on Cross-Reactions of Antipneumococcal Sera. II. Cross-Reactions of Types IX and XII Antipneumococcal Sera with Dextran. JOEL W. GOODMAN AND ELVIN A. KABAT ........................................... 347

Transfer of Delayed Hypersensitivity to Coccidioidin in Man. F. T. RAPAPORT, H. S. LAWRENCE, J. W. MILLAR, D. PAPPAGIANIS AND C. E. SMITH ................................................................. 358

The Immunologic Properties of Coccidioidin as a Skin Test Reagent in Man. F. T. RAPAPORT, H. S. LAWRENCE, J. W. MILLAR, D. PAPPAGIANIS AND C. E. SMITH ................................................................. 368

A Property of Immune Sera Inhibitory for the Growth of the Tubercle Bacillus. IVAN KOCH AND SIDNEY RAPFEL ................................................................. 374

Studies on Immunity to Toxins of Clostridium botulinum. V. Detoxification of Purified Type A and Type B Toxins, and the Antigenicity of Univalent and Bivalent Aluminum Phosphate Adsorbed Toxoids. GEORGE G. WRIGHT, JAMES T. DUFF, MARY A. FIOCK, HENRY B. DEVLIN AND ROBERT L. SODERSTROM ................................................................. 384

Toxic and Allergic Properties of Pollen Extracts in the Mouse. LEON S. KIND AND Luise ROESNER ................................................................. 390

Further Studies on the Effect of Neutralizing Antibody upon the Course of Herpes Simplex Infections in Tissue Culture. CLAYTON E. WHEELER ................................................................. 394

Serologic Relationship between Inclusion Body Proteins of Some Lepidoptera and Hymenoptera. J. KRYWIECZUK AND G. H. BERGOLD ................................................................. 404

Studies on the Immunologic Mechanism of Anaphylaxis. I. Antibody-Hapten Interactions Studied by Passive Cutaneous Anaphylaxis in the Guinea Pig. ZOLTAN OMARY AND FRED KARUSH ................................................................. 409

The Enhancement of Hemolysin Production in the Rat by Zymosan. JOHN L. CUTLER ................................................................. 416

Continuous Synthesis of Antibody after Primary Immunization with Protein Antigens. MAXWELL RICHTER AND FELIX HAUROWITZ ................................................................. 420

A Fluorescent Antibody Study of the Simian Foamy Agent. THEODORE R. CARSKI ................................................................. 426

The Electrophoretic Behavior of Circulating Antigen-Antibody Complexes. WILLIAM O. WEIGLE AND MARIA P. DEICHLMLER ................................................................. 434
