Immunization of Rabbits with Purified Blood Group A and B Substances. Harold Baer and Ursula Rasmussen ................................................................. 1

Studies on Tolerance of the Y Chromosome Antigen in Mice. R. E. Billingham and Willys K. Silvers ................................................................. 14

Experimental Production of Antinuclear Antibodies. Peter Miescher, Norman S. Cooper and Baruj Benacerraf ........................................ 27

Immunochcmical Studies of Human Serum RH Agglutinins. P. C. Y. Chan and H. F. Deutsch ........................................................................ 37

Studies on the Development of Natural Immunity to Poliomyelitis in Louisiana. V. Passive Transfer of Polioantibody from Mother to Fetus, and Natural Decline and Disappearance of Antibody in the Infant. Henry M. Gelfand, John P. Fox, Dorothy R. LeBlanc and Lila Elveback ......................... 46

Studies in Immunization. II. Immunization with Specific Precipitates. Sidney Leskowitz .................................................................................. 56

The Behavior of Different Strains of Poliomyelitis Virus in the Complement Fixation Reaction. III. Comparison of the Potency of Complement Fixing Antigens Derived from Different Strains of Poliomyelitis Virus. Nathalie J. Schmidt, Edwin H. Lennette, Juanita Dennis and Shirley J. Hagens ........................................... 67

Cx-Reactive Protein Response in Rabbits during Immunization with Foreign Proteins. Y. Hokama, Monroe K. Coleman and Richard F. Riley ................. 72

Elastase in the Exocrine Pancreas: Localization with Fluorescent Antibody. Henry D. Moon and Barbara C. McIvor .................................................................. 78

Gross Physical Properties of Emulsified Influenza Virus Vaccines and the Adjuvant Response. Byron S. Berlin ........................................................................ 81

Different Types of Serologic Reactivity to Bedsonia (Psittacosis Group) Antigen in Various Hosts. Discussion of Some Related Problems. Alexander L. Terzian ........................................................................ 90
