CONTENTS

Effects of γ-Rays on the Serologic Properties of Ovalbumin. I. Irradiated Lyophilized Protein. CHARLES A. LEONE ................................................... 107

Effects of γ-Rays on the Serologic Properties of Ovalbumin. II. Fractions from Irradiated Lyophilized Protein. CHARLES A. LEONE ................................................... 112

Studies on the Transfer of Antibody Formation by Iso- and Heterotransplants. PAUL H. CHIN AND MYRON S. SILVERMAN ............................................. 120

The Inhibition of Labeled Antigen Precipitation as a Measure of Serum γ-Globulin. ROBERT J. WEILER, DIANA HOFSTRA, ANDOR SZENTIVANYI, RICHARD BLAISDELL AND DAVID W. TALMAGE ....................................................... 130

Immunologic Differences between the 7S and 19S Components of Normal Human γ-Globulin; Antigenic Specificity of the 7S Component. EDWARD C. FRANKLIN ................................................... 138

Genetic Influences on Iso-Immunization in the Rabbit. CARL COHEN ................................................... 144

Apparent Antigenic Change in a Laboratory Line of Influenza A Virus during Continued Propagation in Chick Embryos. KURT PAUCKER ................................................... 148

Biologic Activity of Aggregated γ-Globulin. II. A Study of Various Methods for Aggregation and Species Differences. KIMISHIGE ISHIZAKA AND TERUKO ISHIZAKA ................................................... 163

Precipitin Production in Chickens. XXI. Antibody Production in Bursectomized Chickens and in Chickens Injected with 19-Nortestosterone on the Fifth Day of Incubation. AUGUST P. MUELLER, HAROLD R. WOLFE AND ROLAND K. MEYER ................................................... 172

A Cytopathogenic Effect of Influenza Virus (PR-8 Strain) for Mouse Fibroblastic (L) Cells in Vitro. DAVID H. SMITH AND HERBERT R. MORGAN ................................................... 180

The Reaction between Dextran and the Properdin-Complement System. I. Inhibition by Excess Dextran. MYRON A. LEON ................................................... 190

Antibody Response to Influenza Vaccines Containing the Asian Strain. JAMES O. CULVER, EDWIN H. LENNETTE, THIRZA E. STEVENS AND ROBERT E. NITZ ................................................... 197

Detection of Cells of Heterologous Origin in Tissue Culture and Their Segregation by the Use of Differential Media. CALVIN M. KUNIN, LYMAN R. EMMONS AND WILLIAM S. JORDAN, JR ................................................... 203
