*The Journal of Immunology* is published twice each month by  
The American Association of Immunologists, Inc.,  
1451 Rockville Pike, Suite 650, Rockville, MD 20852  
All rights reserved.  
Print ISSN: 0022-1767 Online ISSN: 1550-6606.
The Specificity of the Nonspecific. William C. Boyd .................................................... 221

Studies on Immunologic Depression in Chickens. A. A. Hirata and A. M. Schechtman .................................................... 230

The Effect of Added Calcium on Treponemal Immobilization. Frank W. Chorpenning and Donald B. Beers ................................. 240

Serologic Studies of Purified Staphylococcal Coagulase with Special Reference to Fluorescence Microscopy. Hans Blobel and David T. Berman .................................................... 244

The Effect of Antigen Concentration on the Initiation of Detectable Antibody Synthesis in Rabbits. Richard Studley Farr and Frank J. Dixon, Jr. .................................................... 250

Tissue Culture Studies on Bacterial Allergy in Experimental Brucellosis. II. The Cytotoxicity of Nucleoprotein Fractions of Brucellae. Dorothy H. Heilman, Elmer Rice, Dexter H. Howard, Henry E. Weimer and Charles M. Carpenter ................................. 258

The Antibody Response to Smallpox Vaccination as Measured by a Tissue Culture Plaque Method. Ernest Cutchins, Joel Warren and William P. Jones .................................................... 275

Determination of Relative Concentrations of Soluble Antigens in Sea Urchin Eggs by Means of Graded Antiserum Absorptions Combined with Agar Diffusion Techniques. Peter Perlmann, Jane Couffer-Kaltenbach and Hedvig Perlmann .................................................... 284

Studies on Measles Virus. II. Physical Properties and Inactivation Studies of Measles Virus. Samuel J. Musser and Gerald E. Underwood .................................................... 292

A β-Globulin Antibody in the Sera of Guinea Pigs and Cattle Infected with Foot-and-Mouth Disease. F. Brown .................................................... 298

The Production of Antibody by Transferred Bone Marrow. Irwin L. Stoloff .................................................... 304

Purification of the Virus of Foot-and-Mouth Disease by Fluorocarbon Treatment and Its Dissociation from Neutralizing Antibody. F. Brown and B. Cartwright .................................................... 309

Purification of Q Fever Rickettsiae by Density-Gradient Sedimentation. Edgar Ribl and Bill H. Hoyer .................................................... 314

Nephrotic Syndrome in Rats Produced by Sensitization to Rat Kidney Proteins: Immunologic Studies. Janet L. P. Hunter, Donald B. Hackel and Walter Heymann .................................................... 319
