THE JOURNAL OF IMMUNOLOGY

Official Journal of The American Association of Immunologists

CONTENTS

Biological Activity of Soluble Antigen-Antibody Complexes. VI. Complexes in Equivalence and in Excess Antibody. Kimishige Ishizaka, Teruko Ishizaka and Takao Sugahara .............................................................. 590

Lowered Resistance to Influenza Infection of Mice following Immunization with Mercurial Inactivated Influenza Virus. K. Ogasawara, M. Aida and I. Nagata .... 599

An Investigation into the Use of 6-Mercaptopurine to Induce Immunological Tolerance. Kong-Go Goh, Daniel G. Miller and Henry D. Diamond ................................. 606

Studies on Rickettsial Toxins. V. Dissimilarity between the Action of Rickettsial Mouse Lethal Toxin and Bacterial Endotoxin in Mice. Charles L. Wiseman, Jr., Lawrence Pazourer, Anthony Boccutt, Herbert James and Michael B. A. Oldstone ........................................................................... 613

Permeability Changes Produced in Mice by Bordetella pertussis. J. Munoz ......... 618

Effects of Pneumococcus Capsular Polysaccharides on the Degradation of Rabbit Antibodies in Mice. David Gitlin, Fernando Monkeberg and Charles A. Jane-way ................................................................. 627

Plaque Formation with Echo Virus Types 15 to 24. John Maisel and Carlo Mosco-vici ........................................................................................................... 635

A New Model to Study Hematopoietic Transplantation Antigens. Franco Celada and T. Marinodan ................................................................. 638

A Sensitive and Accurate Plate Assay for Poliovirus Neutralizing Antibody. Avril M. Burt and P. D. Cooper ................................................................. 646

Effect of Humoral Factors on in Vitro Phagocytic and Cytopeptic Activities of Normal and "Immune" Phagocytes. Fred Miya and Stanley Marcus ......................... 652

A Mortality Enhancing Extract Isolated from Listeria monocytogenes. Sidney J. Silverman, Lynn Elwell and Donald A. Kautter ................................................. 669

Complement Fixation and Ionic Strength. Lawrence Levine, Eleanor Wasserman and Stanley Mills .............................................................. 675

The Immunologic Response of Rabbits to Homologous and Heterologous Corneal and Uveal Tissue. Waldon B. Wacker and Matt C. Dodd ................................. 690
