THE JOURNAL OF IMMUNOLOGY

Information for Subscribers

Published monthly, beginning January, 1929. (From 1916-1925, and in 1928 Volumes I-X, inclusive, and Vol. XV published bi-monthly.)

The subscription price is $18.00 per year in U.S.A.; $18.75 in Canada; $19.50 elsewhere. Single copies, when available, are $2.25 in U.S.A.; $2.50 elsewhere. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association’s Treasurer, Dr. Byron H. Waksman, Massachusetts General Hospital, Boston 14, Mass. All other subscriptions should be sent to the publishers.

Change of address: Publisher must be notified 60 days in advance. Journals undeliverable because of incorrect address will be destroyed. Duplicates can be obtained (if available) from the publisher at the regular price of single issues.

New subscriptions and renewals are entered to begin with the first volume of the year when subscription is received. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be refunded to the subscriber.

Subscriptions should be renewed promptly: To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Correspondence concerning all business matters should be addressed to

ANNOUNCING...NEW ROCKLAND LABORATORY PRIMATE DIET

A "New Star" in Primate Nutrition... feeding economy... palatability...

process and shape

Investigators agree that laboratory primates, especially during the process of their acclimation, exhibit their natural traits and characteristics in their eating habits and become suspicious, choosy and selective eaters. Every feeding, especially during this initial period, becomes a challenge for the investigators.

To meet this challenge and insure ready response at feeding time, Staley research has developed NEW ROCKLAND Laboratory Primate Diet—a highly palatable, nutritionally complete formulation. No supplementation of fruits and vegetables as sources of Vitamin C is necessary when fed within the dating period indicated on the tag affixed to the bag.

Another extremely valuable advantage incorporated into this product is its shape. Best described as STAR SHAPE, its measurements between points are 2 inches—with a length of 1½ inches and a thickness of ⅝ inch.

After considerable feed testing and research, the new star shape was selected over several other physical forms. The star shape and proportions of Rockland Laboratory Primate Diet not only provide the primates with greater biting surface, but also affect feeding economies as food will not fall through the cage floor.

Phone your Rockland Dealer today for your trial sample. Or for further information, write: A. E. Staley Mfg. Co., Rockland Diets, Decatur, Ill.

Other Rockland Diets include:

- RAT DIET (complete)
- DOG DIET
- RAT DIET (D-Free)
- GUINEA PIG DIET
- MOUSE DIET
- RABBIT DIET
- MOUSE BREEDER DIET

Rockland Diets are available throughout the world through Staley International—Cable: STACOR
an entirely new concept—simple as 1-2-3

Complete Tissue Cultures at 7.4 pH ready to use in seconds

1. CulturSTAT Reagents are supplied in two 100 ml bottles, with a sterile, disposable Vacutainer needle. Bottle 1 contains desiccated perishable reagents of the culture media. Bottle 2 contains a balanced salt solution. CulturSTAT Reagents have long shelf life at normal room temperatures.

2. To restore the desiccated material, insert the short end of the Vacutainer needle through the seal of Bottle 2 and the long end through the seal of Bottle 1. Vacuum automatically transfers the salt solution aseptically in seconds.

3. Withdraw the needle and the complete, sterile tissue culture, at 7.4 pH ± 0.2, is ready for use in seconds.

CulturSTAT

This product, originated by Cappel Laboratories, eliminates entirely the time and effort required to obtain and pipette individual ingredients of a tissue culture medium and to adjust to the proper pH. The possibility of pipetting errors is eliminated and uniformity is assured by standardization. Ask your dealer for CulturSTAT Tissue Culture Reagents today.

WHY NOT? . . . MOTHER WILL NEVER KNOW!

A sweltering day. One sweet bite of coolness. Then, decision. Surely a little dirt won't hurt. After all, children usually get by taking chances. Usually. But Nutritional Biochemicals doesn't. And couldn't. Biochemicals have to be pure. Lives depend on it. The biochemicals a research lab or a hospital orders are perfect . . . or useless. Nutritional Biochemicals stocks 2600 pure biochemicals. Ships them daily all over the world. In short, N.B.:Co. has a vested interest in purity. And, N.B.:Co.'s worldwide volume brings you pure biochemicals at exceptionally low prices.
