The Journal of Immunology

Official Journal of The American Association of Immunologists

CONTENTS

Experimental Auto-Immune Nephrosis in Rats: III. Walter Heymann, Janet L. P. Hunter and Donald B. Hackel .................................................. 135

The Production of Anti-Human Leukemic Serum in Rabbits. Solomon Garb, Arthur A. Stein and George Sims ........................................... 142

Studies on the Immune Response of Guinea Pigs to the Envelope Substance of Pasteurella pestis. I. Immunogenicity and Persistence of Large Doses of Fraction I in Guinea Pigs Observed with Fluorescent Antibody. Richard V. Walker .... 153

Studies on the Immune Response of Guinea Pigs to the Envelope Substance of Pasteurella pestis. II. Fluorescent Antibody Studies of Cellular and Tissue Response in Mice and Guinea Pigs to Large Doses of Fraction I. Richard V. Walker .... 164

Studies on the Immune Response of Guinea Pigs to the Envelope Substance of Pasteurella pestis. III. Immunoresponse of Rats to High Concentrations of Fraction I in Oil. Richard V. Walker .................................................. 174

A Study on Toxic Effect of Vaccinia Virus in Mice with Special Reference to Hematological Changes. Z. Zakay-Rones, A. Rosin and H. Bernkoff .................................................. 184

Observations on the Nature of the Antigen in Tanned Red Cell Hemagglutination. Miriam George and John H. Vaughan .................................................. 191

Transfer of Rabbit Lymph Node Cells to Neonatal Recipient Rabbits. T. N. Harris, Susanna Harris and Miriam B. Farber .................................................. 199

Neonatal Rabbits as Donors of Transferred Lymph Node Cells. Susanna Harris, T. N. Harris, Clifton A. Ogburn and Miriam B. Farber. ................. 206

Studies on Helminth Immunity. IV. Rapid Onset of Resistance by the White Mouse against a Challenging Infection with Eggs of Hymenolepis nana (Cestoda: Hymenolepididae). Donald Heyneman .................................................. 217

Studies on Organ Specificity. XII. Fractionation of Hog Thyroid Extract. Preparation of Thyroglobulin and Thyrotulin. Sidney Shulman and Ernest Witebsky .................................................. 221

Studies on Organ Specificity. XIII. Immunological Analysis of Thyroglobulin and Thyroalbumin. Noel R. Rose, Sidney Shulman and Ernest Witebsky .................................................. 229

Studies of Viruses of the Tick Borne Encephalitis Complex. II. Disease and Immune Responses in Man following Accidental Infection with Kyasanur Forest Disease Virus. Leonard J. Morse, Sudie B. Russ, Charles F. Needy and Edward L. Buescher .................................................. 240

The Bactericidal Activity of Human Serum against Bacteroides coli. Burton A. Waisbren and Imogene Brown .................................................. 249

The Conversion of Precipitating to Nonprecipitating Antibody in Immune Sera of the Guinea Pig. Jacob J. Pruzansky and Samuel M. Feinberg .......... 256

The Passive Transfer to Normal Dogs of Skin Reactivity, Asthma and Anaphylaxis from a Dog with Spontaneous Ragweed Pollen Hypersensitivity. Roy Patterson and Dale B. Sparks .................................................. 262
