The Radiosensitive Nature of Homograft-rejecting and Agglutinin-forming Capacities of Isolated Spleen Cells. Francois Celada and Racheal R. Carter

Studies with Tissue Culture-modified Rinderpest Virus as an Immunizing Agent. Carl J. De Boer

Conditions for the Production of an Interferon Appearing in Chick Cell Cultures Infected with Sindbis Virus. Monto Ho and Mary Kay Berring

A Kinetic Study on the Labeling of Serum Globulin with Fluorescein Isothiocyanate by Means of the Gel Filtration Technique. Tadasu Tokumaru

Immunization in Wasp-sting Allergy through Venom-Repositories and Periodic Insect Stings. Mary Hewitt Loveless

Immunization against Parainfluenza Infections. Antigenicity of Egg Adapted Types 1 and 2. Keith E. Jensen, Betty E. Peeler and William G. Dulworth

The Mechanism of Particulate Carrier Reactions. IV. Adsorption of Human \( \gamma \)-Globulin to Tanned Sheep Erythrocytes and Their Sensitization for Agglutination with Rheumatoid Arthritis Serum. Jacques M. Singer, Irwin Oreskes and Gideon Altman

Formation of Antibody to Haptens. I. Primary and Secondary Responses to \( p \)-Amino Benzoic Acid and Bovine \( \gamma \)-Globulin in Chickens and Rabbits. Eugene F. Gold and Albert A. Benedict

Influence of Vaccination on Respiratory Coccidioidal Disease in Cynomolgous Monkeys. H. B. Levine, R. L. Miller and C. E. Smith

Detection of Antibodies in the \( \alpha-2 \) and \( \gamma \)-Globulin Fractions of Human Tuberculous Sera. Jona Allerhand and Charlotte M. Zitrin

Transfer of Antibody Formation by Spleen Cells from Immunologically Unresponsive Mice. Herman Friedman

Antibody Production and Transfer to Egg Yolk in Chickens. Roy Patterson, Julius S. Youngner, William O. Weigle and Frank J. Dixon

Electron Microscopic Counting of Virus Particles by Sedimentation on Aluminized Grids. Kendall O. Smith and Joseph L. Melnick

Organ Weight Changes and Protein Synthesis in Mice after Immunization to the Enzyme Triose Phosphate Dehydrogenase. Carl J. Wust and G. David Novelli

Demonstration of Gm 1(a) and Anti-Gm 1(a) Specificities by Tanned Cells Coated with Individual \( \gamma \)-Globulins. Wallace V. Epstein and Hugh Fudenberg

The Inhibition of Hemagglutinin Formation in Mice by Thioguanine. Arthur W. Frisch, Gordon H. Davies and Victor Milstein
