CONTENTS

Plaques Produced by T2r Phage Particles Partly Neutralized by Normal and Immune Guinea Pig Sera. ENVER TALI CETIN .......................................................... 609

Isolation and Properties of an Allergen from Dwarf Ragweed Pollen. O. H. CALLAGHAN AND A. R. GOLDFARB........................................................................ 612

Demonstration of Multiple Hemagglutinating Factors in Sera of Ragweed-Allergic Individuals with the Help of Immunosorbents. L. PERELMUTTER, S. O. FREEDMAN AND A. H. SEHON ................................................................. 623

A Tissue Culture Assay for Variola Virus Based upon the Enumeration of Hyperplastic Foci. JAMES B. PIRSCH AND ELLIOTT H. PURISON .................. 632

Immunodiffusion Studies with Pasteurella tularensis Antigen-Rabbit Antibody Systems. HAROLD N. CARLISLE, VELMA HINCHLIFFE AND SAMUEL SASLAW ...................................................... 638

Studies on Hemolysin Production in Trypan Blue-Treated Rats. DAVID V. BROWN AND LORNA M. NORS LE ... 645

The Relationship of Immediate Wheal Reactions to the Repeated Administration of Diphtheria and Tetanus Toxoid. WILLIAM J. KUHNS .............................. 654

The Development of a Formalin-Killed Rift Valley Fever Virus Vaccine for Use in Man. RAYMOND RANDALL, C. J. GIBBS, JR., C. G. AULISIO, L. N. BINN AND V. R. HARRISON ........................................................................... 660

Studies on the Hemagglutination of Coe (Coxackie A21) Virus. NATHALIE J. SCHMIDT, VIRGINIA L. FOX AND EDWIN H. LENNETTE ........................................... 672

Quantitative Studies on Reverse Cutaneous Anaphylaxis in Mice with Progressive Cryptococcosis. IRVING ABRAHAMS, THOMAS G. GILLERAN AND CARL BROOK WEISS ........................................................................................................ 684

Immunoelectrophoresis of Nasal Secretions Collected during a Common Cold: Observations which Suggest a Mechanism of Serocommunity in Viral Respiratory Infections. TRUMAN O. ANDERSON, LOUISE J. M. RIFF AND GEORGE GEE JACKSON .................................................................................................................. 691

Studies of a Complement-Fixing Antigen from Group A Streptococcal L-Forms. II. Antibody Reactions of Naval Recruits in Streptococcal Outbreaks and Acute Rheumatic Fever. YORK E. CRAWFORD .................................................................................. 698

Biological Activities of Aggregated γ-Globulin. V. Agglutination of Erythrocytes and Platelets. TERUKO ISHIZAKA AND KIMISHIGE ISHIZAKA ........................................................................................................... 709

Effect of Antibody Concentration and Temperature upon Physical Adsorption and Histamine Release. GEORGE A. FEIGEN, CHRISTEN B. NIELSEN AND GERONIMO TERRES .................................................................................................................. 717

Mumps Virus Replication. LUCY TREAGAN AND JACOB FONG .................................................................................................................................................. 730

Immunoelectrophoretic Identification of Guinea Pig Anti-Insulin Antibodies. YASUO YAGI, PATRICIA MAIER AND DAVID PRESSMAN ......................................................................................................................... 736

A Study of Macrophages and Epithelioid-Like Cells from Granulomatous (BCG-Induced) Lungs of Rabbits. QUENTIN N. MYRVIK, EVA SOTO LEAKE AND SHUNSAKU OSHIMA .............................................................................................................................................. 745

Comparative Study of the Interaction of Polyoma and Other Hemagglutinating Viruses with an Isolated Brain Mucoprotein. L. BORECKY, S. HAFNER AND W. W. ACKERMANN ........................................................................................................................................... 752
