CONTENTS

NUMBER 1, JANUARY 1963

The Characteristics of Lipid-Adsorbed Virus Vaccines. J. S. Younger and Velma Axelrod

Studies on the Antibacterial Action of Human Saliva. III. Cofactor Requirements of a Lactobacillus Bacteriocidin. Bernard J. Zeldow

Stress and Susceptibility to Viral Infection. I. Response of Adrenals, Liver, Thymus, Spleen and Peripheral Leukocyte Counts to Sound Stress. Marcus M. Jensen and A. F. Rasmussen

Stress and Susceptibility to Viral Infections. II. Sound Stress and Susceptibility to Vesicular Stomatitis Virus. Marcus M. Jensen and A. F. Rasmussen

Specificity of Antisera to Mouse Ascites Tumor in Rabbits Immunologically Depressed with Mouse Red Cells. Arnold E. Reif, Lora M. McVety and Esther R. Klein

Adoptive Tolerance; Transfer of the Tolerant State. Bertie F. Argyris

Spontaneous Canine Hypersensitivity to Ragweed. Characterization of the Serum Factor Transferring Skin, Bronchial and Anaphylactic Sensitivity. Roy Patterson, Jacob J. Pruzansky and Walter W. Y. Chang

Soluble Protective Antigen from Bordetella pertussis Prepared with Sodium Desoxycholate. George Barta

Measurements of Complement by Agglutination of Human Erythrocytes Reacting in Immune-Ardergence. Kusuya Nishioka

Immunohemolysis of Rabbit γ-Globulin Allotypes. Sidney Leskowitz

Reactivity of Rheumatoid Arthritis Sera with Altered and Aggregated Human γ-Globulin. Irwin Oreskes, Jacques M. Singer and Charles M. Plotz

A Comparison of Fluorescein-Labeled γ-Globulins Purified by Rivanol and DEAE Chromatography. Laurence H. Frommhalten and Mary J. Martins

Immunochemical Study of Rabbit γ-Globulin Allotypes. Sidney Leskowitz

Neutralization of Animal Viruses. IV. Parameters of the Influenza Virus-Antibody System. S. Fazekas de St. Groth and R. G. Webster

NUMBER 2, FEBRUARY 1963

The Effect of Excess Antigen on the Anaphylactic Reaction. P. Liacopoulos, B. N. Halpern and O. L. Frick

Antigenic Analysis of Influenza Viruses by Complement Fixation. VII. Further Studies on Production of Pure Anti-S Serum and on Specificity of Type A S Antigens. Florence S. Lief

Alterations in the Development of Experimental Allergic Thyroiditis Induced by Injection of Homologous Thyroid Extract. Branislav D. Jankovic and Martin H. Flax

Neutralization of Visna Virus by Antisera from Sheep. Halldor Thormar

Use of Roosters in the Antigenicity Testing of Salk Poliomyelitis Vaccine. John Furesz and Pierre Moreau
CONTENTS

Disk Plate Assay for Diphtheria Antitoxin in Undiluted Horse and Human Serum and Infants' Whole Blood. Leone N. Farrell, D. B. W. Reid and Agnes C. Kormendy....................... 201
Studies on the Relationship of Delayed Hypersensitivity to Immunity in Tularemia. Milton Gordon ................................................................. 209
The Temporal Relationship of Acquired Tolerance and the Immune Response following Injection of Bovine Serum Albumin into Neonatal Mice. Gail L. Sorem and Geronimo Terres .... 217
The Serologic Specificity of Radiation Altered Human Serum γ-Globulin. Anthony J. Luzzio. 224
Specificity of Phagocytosis as It May Relate to Antibody Formation. Eugene H. Perkins and M. R. Leonard ............................................................... 228
Antiglobulins in Normal Serum. I. Characterization of Two Antiglobulins in Normal Rabbit Sera. R. Glen Watson and Nancy M. Collins ................................................................. 238
Immunoelectrophoretic Study of Rat Serum and Urinary Esterases. G. Hermann, N. Talal, C. de Vaux St. Cyr and J. Escribano ............................................................. 257
Further Studies on the Infectivity of Ribonucleic Acid Prepared from Influenza-Infected Cells. Hunein F. Maassab ................................................................. 265
Phenotypic Expression of Isoantigens of the H-2 System in Embryonic and Newborn Mice. Göran Möller ........................................................................... 271
Antigenic Analysis of Polioviruses Employing the Disk Neutralization Test. Arwin R. Diwan, Yoshikatsu Osaki, Forrest Fulton and Matilda Benyesh-Melnick .......................... 280
The Behavior of Escherichia coli Endotoxin (Somatic Antigen) during Infectious Arthritis. A. I. Braude, J. L. Jones and H. Douglas ................................................................. 297
Studies on an Endotoxin of a Group C Neisseria meningitidis. S. E. Mergenhagen, G. R. Martin and E. Schiffmann ................................................................. 312
Preparation and Immunologic Comparison of Antibodies to Closely Related Antigens Produced in Individual Rabbits. Michael Mage, Emmett W. Bassett, Stuart W. Tanenbaum and Sam M. Beisler ................................................................. 318
The Effect of Methotrexate on the Production of Antibodies against Attenuated Distemper Virus in the Dog. E. Donnell Thomas, James A. Baker and Joseph W. Ferrebee .................. 324

NUMBER 3, MARCH 1963

Obituary: Jules Freund .................................................................................. 331
In Vitro Demonstration of Anti-Ovalbumin Specificity of Lymph Node Cells in Delayed Type Hypersensitivity. Carl Steffen and Michael Rosak ................................................................. 337
Immunologic Unresponsiveness to Purified Proteins in Guinea Pigs. Michael B. Gregg and S. B. Salvin ........................................................................................................ 368
Immunoechemical Studies with Gangliosides. Mitsuo Yokoyama, Eberhard G. Trams and Roscoe O. Brady .................................................................................. 372
Antigenicity of Polypeptides (Poly-α-Amino Acids). VIII. Studies in Guinea Pigs. Paul H. Maurer and Thomas Cashman ................................................................. 393
The Temporal Synthesis and Some Chromatographic and Ultracentrifugal Characteristics of Chicken Antibodies. Albert A. Benedict, Ronald J. Brown and R. T. Hersh ................................................................. 399
Recognition of Foreign Erythrocytes by the Liver in Mice. Eric L. Nelson and Netty S. Buras ................................................................. 412
The Immunologic Specificity of Antibodies to Liver Ribosomes and Nuclei. Nancy J. Bigley, Matthew C. Dodd and Virginia B. Geyer ................................................................. 416
Separation of an Antigenic Fraction from Rat Liver Responsible for the Formation of Liver Localizing Antibodies.  Dov Sulitzeanu, Yasuo Yagi and David Pressman ........................................... 424
Reaction of Poliovirus and Formaldehyde in Magnesium Chloride Solution to Enhance Potency of Killed-Virus Vaccine.  Yoobikatsu Ozaki and Joseph L. Melnick .......................... 429
Immunochrom promised of Antigen-Antibody Complex.  I. General Procedure and Effects of Coagulating Conditions.  Norman M. McDevitt and G. Bonar Sutherland ...................... 438
Immunochrom promised of Antigen-Antibody Complex.  II. Parameters Affecting the Adsorption of Native Antigen by the Complex and Its Subsequent Desorption.  G. Bonar Sutherland and Norman M. McDevitt ........................................... 444
A Histochemical Study of Phagocytic and Enzymatic Functions of Rabbit Mononuclear Polymorphonuclear Exudate Cells and Alveolar Macrophages.  II. The Effect of Particle Ingestion on Enzyme Activity; Two Phases of in Vitro Activation.  Arthur M. Dannenberg, Jr., Paul C. Walter and Frank A. Kapral .................................................... 448
Studies on the Specificity of the Cellular Infiltrate in Delayed Hypersensitivity Reactions.  Robert T. McCluskey, Baruj Benacerraf and Jean W. McCluskey ............... 466
The Absence of Antibody-Producing Cells during Unresponsiveness to BSA in the Mouse.  Eli E. Sercarz and Albert H. Coons .................................................... 478

NUMBER 4, APRIL 1963

Continuous Cobalt-60 Irradiation and Immunity to Influenza Virus.  J. J. Quilligan, Jr., R. D. Boche, E. J. Carruthers, S. L. Axtell and J. C. Trivedi .................................................... 506
Pseudomonas pseudomallei and Pseudomonas aeruginosa as Adjuvants in the Production of Experimental Allergic Encephalomyelitis.  Murray M. Lipton and Alex J. Steigman ...................... 512
Further Observations on the Serologic Specificity of Sialic Acid for Rh(D) Antibody.  Matthew C. Dodd, Nancy J. Bigley and Virginia B. Geyer ............... 518
The Rh(D) Specificity of a Polysaccharide Isolated from a Species of Pseudomonas.  Nancy J. Bigley, Matthew C. Dodd, Chester I. Randles, Virginia B. Geyer and Alvin G. Lazen ............... 526
Effect of Whole Body X-Irradiation on Induction of Allergic Encephalomyelitis in Rats.  Philip Y. Paterson and Norman E. Beisaw .................................................... 532
Experimentally Induced Alterations of the Bactericidal Property of Rabbit Serum for Bacillus subtilis.  I. Effects of Total Body X-Ray Irradiation, Intravenous Administration of Immune Platelet Serum, Thorotrast and Intraperitoneal Injection of Endotoxin.  Gene G. Hunder and Ralph F. Jacob .................................................... 549
Development of Viral Antigen and Infectious Virus in HeLa Cells Infected with Reovirus.  Rex S. Spendlove, Edwin H. Lennette, Charles O. Knight and Jean N. Chin ............... 548
The Role of Mitotic Apparatus in the Intracellular Location of Reovirus Antigen.  Rex S. Spendlove, Edwin H. Lennette and A. Charlotte John .................................................... 554
Cellular Localization of Radioactive Antigen in Immunized and Nonimmunized Mice.  R. S. Speirs and E. E. Speirs .................................................... 561
Effect of Prolonged Immunization on the in Vitro and in Vivo Immunologic Activity of Rabbit Anti-Mouse Erythrocyte Serum.  I. Davidsohn, C. L. Lee and O. Paneczyszyn ...................... 584
Immunologic Relation of Streptococcal and Tissue Antigens.  I. Properties of an Antigen in Certain Strains of Group A Streptococci Exhibiting an Immunologic Cross-Reaction with Human Heart Tissue.  Melvin H. Kaplan .................................................... 595
The Opsomic Effect of Complement on the Phagocytosis of γ-Globulin-Coated Bentonite Particles.  Michael W. Rytel and Gene H. Stollerman .................................................... 607
Allergic and Immunologic Studies of a “Purified” Fraction of Ragweed Pollen.  Carl E. Arbesman, Robert E. Reisman, Herbert S. Bonstein and Noel R. Rose ............... 612
Electrophoretic Boundary Disturbances as a Test for Antigen-Antibody Interaction and Some Observations on the Production of Nonspecific Boundary Disturbances.  Richard S. Farr, Dan H. Campbell and Jerome Vinograd .................................................... 619
Characteristics of a Hapten-Induced Leukoagglutinin. James T. Barrett, Mary M. Rigney, Richard A. Guthrie and David S. Metcalfe .................................................. 643

The Effect of Horse Serum on the Quality of Vaccinia Virus Grown in L Cell Cultures. G. J. Galasso and D. G. Sharp ............................................................. 647

Hemagglutination Studies with Formalinized Erythrocytes. Effect of Bis-Diazo-Benzidine and Tannic Acid Treatment on Sensitization by Soluble Antigen. William T. Butler .............. 663

Factors Affecting Primary and Secondary Antibody Production by Splenic Tissues. Yi-Chi M. Kong and Arthur G. Johnson ............................................................... 672

Competition of Soluble Antigens by Tissue Culture Assay. Natalie E. Cremer .................. 685

Studies on Immunity to Toxins of Clostridium botulinum. IX. Immunologic Response of Man to Purified Pentavalent ABCDE Botulinum Toxoid. Mary A. Fioek, Matteo A. Cardella and Naomi F. Gearinger .................................................. 697

The Role of Antigen Dosage in Drug-Induced Immunologic Tolerance. Robert S. Schwartz and William Dameshek ......................................................................... 703

Tuberculostatic Activity of Normal Human Sera. Ivan Kochan, Charlotte Patton and Kamel Ishak ........................................................................................................ 711

Cross-Protection in Animals Infected with Group A Arboviruses. Henry J. Hearn, Jr. and Cullen T. Rainey ........................................................................................................ 720

Immunologic Studies of Heart Tissue. VI. Cardiac Lesions in Rabbits Associated with Autoanti-bodies to Heart Induced by Immunization with Heterologous Heart. Melvin H. Kaplan and John M. Craig ........................................................................................................ 725

Ribonucleoprotein-Bound Antibody to the Enzyme Triose Phosphate Dehydrogenase. Carl J. Wust and G. David Novelli ............................................................................... 734

Studies on the Role of Complement in the Immune Clearance of Escherichia coli and Rat Erythrocytes by the Reticuloendothelial System in Mice. H. L. Speigelberg, P. A. Miescher and B. Benacerraf .... 751

Nonpathogenic Rickettsias Related to the Spotted Fever Group Isolated from Ticks, Dermacentor variabilis and Dermacentor andersoni from Eastern Montana. E. John Bell, Glen M. Kohls, Herbert G. Stoenner and David B. Lackman ........................................................................................................ 770

Production of Neutralizing Antibody by Mice Injected with Actinophage. S. Gaylen Bradley and Dennis W. Watson ........................................................................................................ 782

The Detection of Humoral Antibodies Directed against Salicylates in Hypersensitive States. Lawrence M. Weiner, Melvyn Rosenblatt and Homer A. Howes ........................................................................................................ 788

A Factor Other Than Streptococcal Nicotinamide Adenine Dinucleotidease Which Combines with Antibody to This Enzyme: Its Production and Effect on Antibody Determinations. Elia M. Ayoub and Lewis W. Wannamaker ........................................................................................................ 793

Dissociation of Phagocytosis and Intracellular Killing of Staphylococcus aureus by Human Blood Leukocytes. Isabel W. Li, Stuart Mudd and Frank A. Kapral ........................................................................................................ 804

The Surface Structure of Pseudomonas aeruginosa. J. Yuzuru Homma, Nachiko Suzuki and Fumiko Ito ........................................................................................................ 819

In Vitro Production of Antibody by Chicken Spleen Cells. I. Detection of Antibody by Isotope Techniques. Roy Patterson, Irena M. Suszko and Jacob J. Pruzanaky ........................................................................................................ 829
In Vitro Production of Antibody by Chicken Spleen Cells. II. Immunofluorescent Studies of Tissue Culture Preparations. Roy Patterson and Irena M. Suszko ................................................................. 836
Immunological Studies with Partially Purified Bovine and Human TSH. Edward R. Arquilla, Boris Catz and Jack Finn ........................................................................................................ 843
Classification of Trachoma Virus Strains by Protection of Mice from Toxie Death. San-Pin Wang and J. Thomas Grayston ...................................................................................... 849
Studies on Fragments of Rabbit γ-Globulin. Joel W. Goodman and Dale Gross .......................... 865
Effect of Thymectomy and Bursectomy on Precipitin and Natural Hemagglutinin Production in the Chicken. M. A. Graetzer, H. R. Wolfe, R. L. Aspinall and R. K. Meyer ............................. 878
Normal Human Serum Derivatives That Inhibit the Tanned Cell Hemagglutination Test for Rheumatoid Arthritis and Other Reactions. Norman Bloomfield ........................................... 888
The Roles of Cellular Division and Maturation in the Formation of Precipitating Antibody. Paul Urso and T. Makinodan .................................................................................. 897
Demonstration of Human Measles Antibody by Mixed Agglutination. Almen L. Barron, Felix Milgrom, David T. Karzon and Ernest Witebsky ........................................................................ 908
The Effect of Ionic Strength on the Formation, Stability and Lysis of Persensitized Erythrocytes (EAC′s). Harold G. Walker and Alastair C. Wardlaw ................................................. 925
Induction of Unresponsiveness and Immunity in Newborn and Adult Mice with Pneumococcal Polysaccharide. Gregory W. Siskind, Philip Y. Paterson, and Lewis Thomas ......................... 929
The Formation of Soluble Complexes in the Region of Antibody Excess with Protein Antigens and Their Rabbit Antibodies. Othmar Forster and William O. Weigle ......................... 935
The Resistance of A2G Mice to Myxoviruses. Jean Lindenmann, Christine A. Lane and Derek Hobson ..................................................................................................................... 942
Cellular Demonstration of Antibody Production in Rana pipiens. Robert G. Krueger and Robert M. Twedt ........................................................................................................ 952
Preparation of Primary Human Amnion Cells by Pancreatin Procedure and Their Susceptibility to Enteroviruses. Hajime Hayashi and Gerald A. LoGrippo ........................................... 956
Biologic Activities of Aggregated γ-Globulin. VI. Aggregated Products of Rabbit Serum Proteins. Takao Sugahara, Kimishige Ishizaka and Teruko Ishizaka ........................................... 960
