CONTENTS

NUMBER 1, JANUARY 1963

The Characteristics of Lipid-Adsorbed Virus Vaccines. J. S. Younger and Velma Axelrod ........ 1

Stress and Susceptibility to Viral Infection. I. Response of Adrenals, Liver, Thymus, Spleen and Peripheral Leukocyte Counts to Sound Stress. Marcus M. Jensen and A. F. Rasmussen ....... 17

Stress and Susceptibility to Viral Infections. II. Sound Stress and Susceptibility to Vesicular Stomatitis Virus. Marcus M. Jensen and A. F. Rasmussen .................................................................. 21

Specificity of Antiserum to Mouse Ascites Tumor in Rabbits Immunologically Depressed with Mouse Red Cells. Arnold E. Reif, Lora M. McVety and Esther R. Klein ......................................................... 24

Adoptive Tolerance; Transfer of the Tolerant State. Bertie F. Argyris .................................................................................................................. 29

Spontaneous Canine Hypersensitivity to Ragweed. Characterization of the Serum Factor Transferring Skin, Bronchial and Anaphylactic Sensitivity. Roy Patterson, Jacob J. Pruzansky and Walter W. Y. Chang ....................................................................................... 35

Cutaneous Anaphylaxis in the Guinea Pig and Its Relative Insusceptibility to an Antihistamine. J. P. Craig and D. L. Wilhelm .......................................................................................... 43

Soluble Protective Antigen from Bordetella pertussis Prepared with Sodium Desoxycholate. George Barta ......................................................................................................................... 72

Measurements of Complement by Agglutination of Human Erythrocytes Reacting in Immune-Adherence. Kusuya Nishioka ........................................................................................................ 86

Immunohemagglutination Study of Rabbit γ-Globulin Allotypes. Sidney Leskowitz ................................................................................................................................. 98

Reactivity of Rheumatoid Arthritis Sera with Altered and Aggregated Human γ-Globulin. Irwin Oreskes, Jacques M. Singer and Charles M.plots ........................................................................... 107

A Comparison of Fluorescein-Labeled γ-Globulins Purified by Rivanol and DEAE Chromatography. Laurence H. Frommhagen and Mary J. Martins ........................................................................ 116

Immunologic Paralysis Produced in Mice by Klebsiella pneumoniae Type 2 Polysaccharide. Badi A. Bathson, Harold Baer and Morris F. Shaffer ........................................................................ 121

Interaction of Rickettsiae and Phagocytic Host Cells. III. Opsonizing Antibodies in Human Subjects Infected with Virulent or Attenuated Rickettsia prowazekii or Inoculated with Killed Epidemic Typhus Vaccine. Charles L. Wiseman, Jr., John R. Gauld and Jane G. Wood ...... 127

Comparison of Bordetella pertussis Cells and Freund's Adjuvant with Respect to Their Antibody Inducing and Anaphylactogenic Properties. J. Munoz ................................................................................................................................. 132

The Neutralization of Animal Viruses. III. Equilibrium Conditions in the Influenza Virus-Antibody System. S. Fazekas de St. Groth and R. G. Webster ........................................................................ 140

The Neutralization of Animal Viruses. IV. Parameters of the Influenza Virus-Antibody System. S. Fazekas de St. Groth and R. G. Webster ........................................................................ 151

NUMBER 2, FEBRUARY 1963

The Effect of Excess Antigen on the Anaphylactic Reaction. P. Liacopoulos, B. N. Halpern and O. L. Frick ............................................................................................................................... 165

Antigenic Analysis of Influenza Viruses by Complement Fixation. VII. Further Studies on Production of Pure Anti-S Serum and on Specificity of Type A S Antigens. Florence S. Lief ................................................................................................... 172

Alterations in the Development of Experimental Allergic Thyroiditis Induced by Injection of Homologous Thyroid Extract. Branislav D. Jankovl and Martin H. Flax ........................................................................ 178

Neutralization of Visna Virus by Antiserum from Sheep. Halldór Thormar ....................................................................................................................... 185

Use of Roosters in the Antigenicity Testing of Salk Poliomyelitis Vaccine. John Furesz and Pierre Moreau .......................................................................................................................... 193
CONTENTS

Disk Plate Assay for Diphtheria Antitoxin in Undiluted Horse and Human Serum and Infants' Whole Blood. Leone N. Farrell, D. B. W. Reid and Agnes C. Kormendy .......................... 201

Studies on the Relationship of Delayed Hypersensitivity to Immunity in Tulareemia. Milton Gordon ................................................................. 209

The Temporal Relationship of Acquired Tolerance and the Immune Response following Injection of Bovine Serum Albumin into Neonatal Mice. Gail L. Sorem and Geronimo Terres ................... 217

The Serologic Specificity of Radiation Altered Human Serum γ-Globulin. Anthony J. Luzzio .... 224

Specificity of Phagocytosis as It May Relate to Antibody Formation. Eugene H. Perkins and M. R. Leonard ......................................................................... 228

Antiglobulins in Normal Serum. I. Characterization of Two Antiglobulins in Normal Rabbit Sera. R. Glen Watson and Nancy M. Collins .................. 238

Immunoelectrophoretic Study of Rat Serum and Urinary Esterases. G. Hermann, N. Talal, C. de Vaux St. Cyr and J. Escribano ................................................................. 257

Further Studies on the Infectivity of Ribonucleic Acid Prepared from Influenza-Infected Cells. Hunein F. Maassab .................................................... 265

Phenotypic Expression of Isoantigens of the H-2 System in Embryonic and Newborn Mice. Göran Möller ................................................................. 271

Antigenic Analysis of Polioviruses Employing the Disk Neutralization Test. Arwin R. Diwan, Yoshikatsu Ozaki, Forrest Fulton and Matilda Benyesh-Melnick .................. 280

The Behavior of Escherichia coli Endotoxin (Somatic Antigen) during Infectious Arthritis. A. I. Braude, J. L. Jones and H. Douglas .............................................. 297

Studies on an Endotoxin of a Group C Neisseria meningitidis. S. E. Mergenhagen, G. R. Martin and E. Schiffmann ................................................................. 312

Preparation and Immunologic Comparison of Antibodies to Closely Related Antigens Produced in Individual Rabbits. Michael Mage, Emmett W. Bassett, Stuart W. Tanenbaum and Sam M. Beiser .................. 318

The Effect of Methotrexate on the Production of Antibodies against Attenuated Distemper Virus in the Dog. E. Donnall Thomas, James A. Baker and Joseph W. Ferrebee .................................................. 324

NUMBER 3, MARCH 1963

In Vitro Demonstration of Anti-Ovalbumin Specificity of Lymph Node Cells in Delayed Type Hypersensitivity. Carl Steffen and Michael Rosak .................................................. 331

Immunologic Unresponsiveness to Purified Proteins in Guinea Pigs. Michael B. Gregg and S. B. Salvin ................................................................. 358

Immunoenzymic Studies with Gangliosides. Mитею Yokoyama, Eberhard G. Trams and Roscoe O. Brady ................................................................. 368

Antigenicity of Polypeptides (Poly-α-Amino Acids). VII. Studies in Guinea Pigs. Paul H. Maurer and Thomas Cashman ................................................................. 388

The Temporal Synthesis and Some Chromatographic and Ultracentrifugal Characteristics of Chicken Antibodies. Albert A. Benedict, Ronald J. Brown and R. T. Hersh .................................................. 393

Recognition of Foreign Erythrocytes by the Liver in Mice. Eric L. Nelson and Netty S. Buras ................................................................. 399

The Immunologic Specificity of Antibodies to Liver Ribosomes and Nuclei. Nancy J. Bigley, Matthew C. Dodd and Virginia B. Geyer ................................................................. 412

Obituary: Jules Freund ................................................................. 311

by guest on November 13, 2017 http://www.jimmunol.org/ Downloaded from
Separation of an Antigenic Fraction from Rat Liver Responsible for the Formation of Liver Localizing Antibodies. Dov Sulitzeanu, Yasuo Yagi and David Pressman

Reaction of Poliovirus and Formaldehyde in Magnesium Chloride Solution to Enhance Potency of Killed-Virus Vaccine. Yoshikibu Ozaki and Joseph L. Melniek

Immunocastrochemistry of Coagulated Antigen-Antibody Complex. I. General Procedure and Effects of Coagulating Conditions. Norman M. McDuflie and G. Bonar Sutherland

Immunocastrochemistry of Coagulated Antigen-Antibody Complex. II. Parameters Affecting the Adsorption of Native Antigen by the Complex and Its Subsequent Desorption. G. Bonar Sutherland and Norman M. McDuflie

A Histochemical Study of Phagocytic and Enzymatic Functions of Rabbit Mononuclear Polymorphonuclear Exudate Cells and Alveolar Macrophages. II. The Effect of Particle Ingestion on Enzyme Activity; Two Phases of in Vivo Activation. Arthur M. Dannenberg, Jr., Paul C. Walter and Frank A. Kapral

Studies on the Specificity of the Cellular Infiltrate in Delayed Hypersensitivity Reactions. Robert T. McCluskey, Baruj Benacerraf and Jean W. McCluskey

The Absence of Antibody-Producing Cells during Unresponsiveness to BSA in the Mouse. Eli E. Sercarz and Albert H. Coons

NUMBER 4, APRIL 1963

Continuous Cobalt-60 Irradiation and Immunity to Influenza Virus. J. Q. Quilligan, Jr., R. D. Boche, E. J. Carruthers, S. L. Axte11 and J. C. Trivedi

Pseudomonas pseudomallei and Pseudomonas aeruginosa as Adjuvants in the Production of Experimental Allergic Erenophamilitis. Murray M. Lipton and Alex J. Steigman

Further Observations on the Serologic Specificity of Sialic Acid for Rh(D) Antibody. Matthew C. Dodd, Nancy J. Bigley and Virginia B. Geyer

The Rh(D) Specificity of a Polysaccharide Isolated from a Species of Pseudomonas. Nancy J. Bigley, Matthew C. Dodd, Chester I. Randles, Virginia B. Geyer and Alvin G. Lazen

Effect of Whole Body X-Irradiation on Induction of Allergic Erenophamilitis in Rats. Philip Y. Paterson and Norman E. Beisaw

Experimentally Induced Alterations of the Bactericidal Property of Rabbit Serum for Bacillus subtilis. I. Effects of Total Body X-Ray Irradiation, Intravenous Administration of Immune Platelet Serum, Thorotrast and Intraperitoneal Injection of Endotoxin. Gene G. Hunder and Ralph F. Jacox

Development of Viral Antigen and Infectious Virus in HeLa Cells Infected with Reovirus. Rex S. Spendlove, Edwin H. Lennette, Charles O. Knight and Jean N. Chin

The Role of Mitotic Apparatus in the Intracellular Location of Reovirus Antigen. Rex S. Spendlove, Edwin H. Lennette and A. Charlotte John

Cellular Localization of Radioactive Antigen in Immunized and Nonimmunized Mice. R. S. Speirs and E. E. Speirs

Effect of Prolonged Immunization on the in Vivo and in Vivo Immunocastrochemical Activity of Rabbit Anti-Mouse Erythrocyte Serum. I. Davidsohn, C. L. Lee and O. Pan czyzyn

Immunologic Relation of Streptococcal and Tissue Antigens. I. Properties of an Antigen in Certain Strains of Group A Streptococci Exhibiting an Immunocastrolic Cross-Reaction with Human Heart Tissue. Melvin H. Kaplan

The Opsonic Effect of Complement on the Phagocytosis of γ-Globulin-Coated Bentonite Particles. Michael W. Rytel and Gene H. Stollerman

Allergic and Immunocastrological Studies of a “Purified” Fraction of Ragweed Pollen. Carl E. Arbesman, Robert E. Reisman, Herbert S. Bonstein and Noel R. Rose

Electrophoretic Boundary Disturbances as a Test for Antigen-Antibody Interaction and Some Observations on the Production of Nonspecific Boundary Disturbances. Richard S. Farr, Dan H. Campbell and Jerome Vinograd

Characteristics of a Hapten-Induced Leukoagglutinin. James T. Barrett, Mary M. Rigney, Richard A. Guthrie and David S. Metcalfe .................................................. 643
The Effect of Horse Serum on the Quality of Vaccinia Virus Grown in L Cell Cultures. G. J. Galasso and D. G. Sharp ............................................................. 647

Number 5, May 1963

Hemagglutination Studies with Formalinized Erythrocytes. Effect of Bis-Diazo-Benzidine and Tannic Acid Treatment on Sensitization by Soluble Antigen. William T. Butler............. 663
Factors Affecting Primary and Secondary Antibody Production by Splenic Tissues. Yi-Chi M. Kong and Arthur G. Johnson................................................... 672
Competition of Soluble Antigens by Tissue Culture Assay. Natalie E. Cremer ............... 685

Studies on Immunity to Toxins of Clostridium botulinum. IX. Immunologic Response of Man to Purified Pentavalent ABCDE Botulinum Toxoid. Mary A. Fioek, Matteo A. Cardella and Naomi F. Gearinger........................................................................ 697
The Role of Antigen Dosage in Drug-Induced Immunologic Tolerance. Robert S. Schwartz and William Dameshek ......................................................................... 703
Tuberculostatic Activity of Normal Human Sera. Ivan Kochan, Charlotte Patton and Kamel Ishak........................................................................................................ 711
Cross-Protection in Animals Infected with Group A Arboviruses. Henry J. Hearn, Jr. and Cullen T. Rainey.................................................................................. 720
Immunologic Studies of Heart Tissue. VI. Cardiac Lesions in Rabbits Associated with Autoantibodies to Heart Induced by Immunization with Heterologous Heart. Melvin H. Kaplan and John M. Craig............................................................................. 725
Ribonucleoprotein-Bound Antibody to the Enzyme Triose Phosphate Dehydrogenase. Carl J. Wust and G. David Novelli ........................................................................ 734

Studies on the Role of Complement in the Immune Clearance of Escherichia coli and Rat Erythrocytes by the Reticuloendothelial System in Mice. H. L. Spiegelberg, P. A. Miescher and B. Benacerraf ........................................................................ 751

Nonpathogenic Rickettsias Related to the Spotted Fever Group Isolated from Ticks, Dermacentor variabilis and Dermacentor andersoni from Eastern Montana. E. John Bell, Glen M. Kohls, Herbert G. Stoennner and David B. Laekman........................................................................ 770
Production of Neutralizing Antibody by Mice Injected with Actinophage. S. Gaylen Bradley and Dennis W. Watson........................................................................ 782
The Detection of Humoral Antibodies Directed against Salicylates in Hypersensitive States. Lawrence M. Weiner, Melvyn Rosenblatt and Homer A. Howes .................................................................. 788
A Factor Other Than Streptococcal Nicotinamide Adenine Dinucleotidase Which Combines with Antibody to This Enzyme: Its Production and Effect on Antibody Determinations. Elia M. Ayoub and Lewis W. Wannamaker ........................................................................ 793

Disassociation of Phagocytosis and Intracellular Killing of Staphylococcus aureus by Human Blood Leukocytes. Isabel W. Li, Stuart Mudd and Frank A. Kapral ........................................................................ 804

The Surface Structure of Pseudomonas aeruginosa. J. Yuzuru Honma, Nachiko Suzuki and Fumiko Ito.................................................................................. 819

Number 6, June 1963

In Vitro Production of Antibody by Chicken Spleen Cells. I. Detection of Antibody by Isotope Techniques. Roy Patterson, Irena M. Suszko and Jacob J. Pruzanaky........... 829
In Vitro Production of Antibody by Chicken Spleen Cells. II. Immunofluorescent Studies of Tissue Culture Preparations. Roy Patterson and Irena M. Suszko............................................. 836
Immunological Studies with Partially Purified Bovine and Human TSH. Edward R. Arquilla, Boris Catz and Jack Finn.......................................................... 843
Classification of Trachoma Virus Strains by Protection of Mice from Toxie Death. San-Pin Wang and J. Thomas Grayston .......................................................... 849
Studies on Fragments of Rabbit γ-Globulin. Joel W. Goodman and Dale Gross........... 856
Effect of Thymectomy and Bursectomy on Precipitin and Natural Hemagglutinin Production in the Chicken. M. A. Graetzer, H. R. Wolfe, R. L. Aspinall and R. K. Meyer.................... 878
Normal Human Serum Derivatives That Inhibit the Tanned Cell Hemagglutination Test for Rheumatoid Arthritis and Other Reactions. Norman Bloomfield............. 888
The Roles of Cellular Division and Maturation in the Formation of Precipitating Antibody. Paul Urso and T. Makinodan.......................................................... 897
The Effect of Ionic Strength on the Formation, Stability and Lysis of Persensitized Erythrocytes (EACs). Harold G. Walker and Alastair C. Wardlaw........................................... 925
Induction of Unresponsiveness and Immunity in Newborn and Adult Mice with Pneumococcal Polysaccharide. Gregory W. Siskind, Philip Y. Paterson, and Lewis Thomas................. 929
The Formation of Soluble Complexes in the Region of Antibody Excess with Protein Antigens and Their Rabbit Antibodies. Othmar Forster and William O. Weigle........................................... 935
The Resistance of A2G Mice to Myxoviruses. Jean Lindenmann, Christine A. Lane and Derek Hobson.......................................................... 942
Cellular Demonstration of Antibody Production in Rana pipiens. Robert G. Krueger and Robert M. Twedt.......................................................... 952
Preparation of Primary Human Amnion Cells by Pancreatin Procedure and Their Susceptibility to Enteroviruses. Hajime Hayashi and Gerald A. LoGrippo.......................... 956
Biologic Activities of Aggregated γ-Globulin. VI. Aggregated Products of Rabbit Serum Proteins. Takao Sugahara, Kimishige Ishizaka and Teruko Ishizaka.......................... 960
