Dynamics and Quantitative Analysis of Passively Transferred Tuberculin Hypersensitivity. Joseph D. Feldman and John S. Najarian .................. 306
The Molecular Properties of Antibodies Synthesized in Response to Simple Haptens. D. C. Bauer ................................................................. 323
The Antigenic Composition of Rat Serum: An Electrophoretic Study. David C. Benjamin and Henry E. Weimer ........................................ 331
The Molecular Ratio Between "Tissular" Antibodies and Released Histamine during the Anaphylactic Reaction in Isolated Guinea Pig Lung Preparations. P. Llacopoulous, S. H. Stone and M. F. Perramant ........... 348
Isolation of Non-Dialyzable Allergens and Antigens from Low Ragweed Pollen (Ambrosia elatoir). Kenneth C. Robbins, Helen Wu, Peter Baram and Milton M. Mosko .......................................................... 354
Anti-Rabies Vaccine of Tissue Culture Origin. R. E. Kissling and D. R. Reece ... 362
The J Substance of Cattle. VIII. The J-like Substance of Rabbits and the Production of Immune Anti-J. A. G. Bednekoff, A. Tolle, S. P. Datta, Janis Friedman and W. H. Stone ............................................................. 369
Mechanisms of Immunologic Paralysis by Pneumococcal Polysaccharide. I. Studies of Adoptively Acquired Immunity to Pneumococcal Infection in Immunologically Paralyzed and Normal Mice. Carolyn A. Neeper and C. V. Seastone ... 374
Fetal Response to Antigenic Stimulus. III. y-Globulin Production in Normal and Stimulated Fetal Lambs. Arthur M. Silverstein, G. J. Thorbecke, Keith L. Kraner and Robert J. Lukes .................................................. 384
Differential Response to Allogenic and Xenogenic Skin Grafts by Sublethally Irradiated (670 Rad) and Nonirradiated Mice Sensitized by Various Means. Marvin L. Tyau and Leonard J. Cole .................................................. 396
Immunohemical Identification and Genetics of Rabbit y-Globulin Allotypes. Sheldon Dray, Glendolyn O. Young and Leroy Gerald ................. 403
Primary and Secondary Antitoxin Responses in Thymectomized Mice. Max W. Hess, Hans Cottier, and Richard D. Stoner ....................... 425
