Immunologic Unresponsiveness to Heterologous Serum Proteins Induced in Adult Mice and Transfer of the Unresponsive State. FELIX M. DIETRICH AND WILLIAM O. WEIGLE ........................................ 167

Multiplicity of Antibody Proteins in Rabbit Anti-p-Azobenzenearsenonate Sera. KAORU ONOUE, YASUO YAGI AND DAVID PRESSMAN .................................................. 173

The Measurement of Type- and Nontype-Specific Group A Hemolytic Streptococcal Antibody with an Hemagglutination Technique. KENNETH L. VOSTI AND LOWELL A. RANTZ .................................................. 185

Prevention of Immunologic Unresponsiveness to Shigella Antigens in Neonatal Mice by Homologous Spleen Cell Transplants. HERMAN FRIEDMAN ........................................ 201

Dynamic Aspects of the Formation of Serum Antibody in Rabbits. Exponential and Arithmetic Phases in the Rise of Titer following a Rejection of Sulfanilazo Bovine-g-Globulin. JOSEPH S. INGRAHAM, LEO KENDALL, WILLIAM J. WYATT AND LOWELL A. RANTZ .................................................. 208

The Effect of Endotoxin on the Antibody Response of Transferred Spleen Cells. EDWARD P. COHEN, LOUISE K. CROSBY AND DAVID W. TALMAGE .......................................................... 215

Immunohemical Studies on Rabbit Anti-Antibody. H. H. FUDENBERG, J. W. GOODMAN AND F. MILGROM .......................................................... 227

Doubling Time of Mouse Spleen Cells during the Latent and Log Phases of Primary Antibody Response. ELMO E. CAPALBO AND T. MAKINODAN ........................................ 234

Evaluation of the Diffusion Chamber Culture Technique for Study of the Morphological and Functional Characteristics of Lymphoid Cells during Antibody Production. ELMO E. CAPALBO, JOSEPH F. ALBRIGHT AND WILLIAM E. BENNETT .................................................. 243

Primary and Secondary Antibody Response in Rats to Bacterial and Sheep Erythrocyte Antigens. MARIANO F. LA VIA .................................................. 252

A Comparison of the Reactivity of Poliovirus Complement-Fixing Antigens (Native, Heated and Sucrose Density Gradient C and D) with Human Sera. EDWIN H. LENNETTE, NATHALIE J. SCHMIDT, ROBERT L. MAGOFFIN, SHIRLEY J. HAGENS AND ELLEN J. DUKELLIS .................................................. 261

Decreased Immunogenicity of a Transplantation Antigen in Hosts Sensitized to Other Isoantigens of Its Cellular Vehicle. WILLIAM L. ELKINS .................................................. 275

The Bactericidal Actions of O and VI Antibodies against Salmonella typhosa. ETSUKO OSAWA AND LOUIS H. MUSCHEL .................................................. 281

Toxicity, Pathogenicity and Antigenicity of Inhibitor-Sensitive and Nonsensitive Substrains of Influenza A1 Isolates. FLORENCE S. LIEF .................................................. 286

Effects of Heterologous Antileukocyte Serum on Leukocyte Metabolism. JULIUS KREITMAN AND JOHN S. McCARTHY .................................................. 299

An Immunologic Study of the “Lipovirus.” R. SHIEMAN CHANG AND SUSAN OWENS .................................................. 313

Disappearance of I11-Labeled Diphtheria Toxoid in Human Skin and Its Relationship to Immediate Wheal Reactions. WILLIAM J. KUHNS .................................................. 320

Dextran Sulfate Plaque Variants of Attenuated Type 1 Poliovirus. Relationship to in Vitro and in Vivo Markers. K. K. TAKEMOTO AND R. L. KIRSCHSTEIN .................................................. 329
