This information is current as of January 22, 2018.

93 (1)

*Why The JI?*

- **Rapid Reviews! 30 days** from submission to initial decision
- **No Triage!** Every submission reviewed by practicing scientists
- **Speedy Publication!** 4 weeks from acceptance to publication

*average*

**Subscription**

Information about subscribing to *The Journal of Immunology* is online at:
http://jimmunol.org/subscription

**Permissions**

Submit copyright permission requests at:
http://www.aai.org/About/Publications/JI/copyright.html

**Email Alerts**

Receive free email-alerts when new articles cite this article. Sign up at:

THE JOURNAL OF IMMUNOLOGY
Official Journal of
The American Association of Immunologists

The American Association of Immunologists: Past Accomplishments, Future Challenges. F. S. CHEEVER ............................................................ 1
Virulence and Interferon Production of Strains of Foot-and-mouth Disease Virus. R. F. SELLES ................................................................. 6
The Blood Groups of Mink. II. The Detection of an A-like Antigen on the Red Blood Cells of Mink by the Use of Pig Anti-A Serum. RUTH SAIJIN ................................................................. 20
Purification of Human Serum γ-Globulin for Immunologic Studies: γ-Globulin Fragmentation after Sulfate Precipitation and Prolonged Dialysis. ARTHUR J. L. STRAUSS, PIERSON G. KEMP, JR., WILTON E. VANNIER AND HOWARD C. GOODMAN... 24
Immunologic Studies of Purified Viral Hemagglutinin. MYRON TONG AND JACOB FONG ................................................................. 85
Protective Effect of Antibody or Elevated Temperature on Intracerebral Infection of Mice with Encephalomyocarditis Virus. SAMUEL BARON AND CHARLES E. BUCKLER. 45
Biologic Activity of Canine Nonprecipitating and Precipitating Antibody. ROY PATTERSON, JACOB J. PRUZANSKY AND BURTON JANIS ............................ 51
Molecular Basis of Passive Sensitization. II. The Role of Fragment III of γ-Globulin and Its Disulfide Bonds in Passive Sensitization and Complement Fixation. KIMISHIGE ISHIHAMA AND TERUKO ISHIHAMA ................................................................. 59
Viral Leucocyte Interrelationships. I. Multiplication of a DNA Virus—Herpes Simplex—in Human Leucocyte Cultures. ANDRE J. NAHMIA, SIDNEY KIBRICK AND ROBERT C. RUSIN ............................. 69
Immunologic Status of Thymectomized Adult Rats. ALAN C. AISENBERG AND BARBARA WILLES. 75
Relationship between γ-Globulin Metabolism and Low Serum γ-Globulin in Germfree Mice. STEWART SELL AND JOHN L. FABER ................................................................. 81
Phagocytosis and Intracellular Killing of Staphylococcus aureus by Human and Rabbit Blood Leucocytes. MEHDI G. SHAYEGANI, FRANK A. KAPEL AND STUART MUDD .................. 88
Antibody Formation by Rabbit Lymph Node Cells. V. Cellular Heterogeneity in the Production of Antibody to T5. GIUSEPPE ATTARDI, MELVIN COHN, KENGO HIRONOBU AND EDWIN S. LENNOX ................................................................. 94
Neutralization of Bacteriophage by Intact and Degraded Rabbit Antibody. JOEL W. GOODMAN AND JOHN J. DONCH ................................................................. 96
Multiple Discrete Components of the Univalent Fragments of Rabbit Antibodies. PETER STELOS, YASUKO YAGI AND DAVID PRESSMAN ................................................................. 106
Acquired Tolerance to Skin Homografts in Mice. III. Role of Immune Status of Host in Induction and Maintenance of Tolerance. BERTIE F. ARGYRIS ................................................................. 114
Immunoglobulins of the Germfree Guinea Pig. STEWART SELL ................................................................. 122
Duration of Some Cutaneous Hypersensitivities in Mice. ALFRED J. CROWLE AND C. C. HU ............ 132
Studies on Filtrates from Cultures of a Psychrophylic Pseudomonas sp. which Inactivate Non-specific Serum Inhibitors for Certain Hemagglutinating Viruses. NATHAN J. SCHMIDT, JUANITA DENNIS AND EDWIN H. LENNETTE ................................................................. 140
Antinuclear Factor in Mice. LESLIE C. NORMS and MARGARET C. HOLMES ................................................................. 148
Biologic Properties of Polynucleotides. III. The Anticomplementary Properties of Polyriboguanilic Acid. STANLEY YACHNIN ................................................................. 155
The Blood Forming Tissues and Blood of the Newborn Opossum (Didelphys virginiana). II. Ontogenesis of Antibody Formation to Flagella of Salmonella typhi. DAVID T. ROWLANDS, JR., MARIANO F. LA VIA AND MATTHEW H. BLOCK ................................................................. 157
The Role of the Mast Cell in Anaphylaxis in the Mouse. JULIA M. EINBINDER, RICHARD A. WALDER AND CARL T. NELSON ................................................................. 165
Immunologic Studies of Pancreas-specific Isoantigens. RICHARD S. METZGAR ................................................................. 176
