
Studies on the Interrelationship of Cold Environment, Immunity and Resistance to Infection. II. Qualitative and Quantitative Studies on the Immune Response. .......................... 662

Topography of Synthesis of S and V Antigens of Sendai Virus. V. M. Zdunov, N. B. Azadov and L. Y. Ustyavtsev .................. 668

The Interaction between Cartilage and the First Component of Complement. Tibor Borsos, Herbert J. Rapp and Chile Crienser .................. 665

Immune Degradation in Passively Sensitized Mice. II. Degradation of Human and Bovine Serum Albumin in Mice Concomitantly Injected with Various Heterologous Antisera. Sherie Leaver Morrison and Geronimo Terres .................. 670

The Suppression of Anti-Bovine Serum Albumin Production in Rabbits by Acriflavine Hydrochloride. N. F. Richard S. Farr, Joel S. Samuelson and P. Brian Stewart .................. 679

Association of the Lysosomes of the Reticuloendothelial System with Mouse Anaphylaxis. Perry E. Treadwell .................. 692

Common Antigenic Determinants of Penicillin G, Cephalothin and 6-Aminopenicillanic Acid in Rabbits. Michel W. Brandris, James W. Smith and Harry G. Steiman .................. 695

Induction of Immunologic Unresponsiveness in Chickens with Avian Serum Proteins. C. H. Temple........................................ 699

Agglutination of Latex Particles with Antigen Adsorption. Paul Donaldson and Karen Pennington .................. 710

Radioisotopic Studies of Primary Epidemic Typhus and Recrudescence Typhus (Brill-Zinsser Disease). II. Differences in Immunoelectrophoretic Patterns, Response to 2-Mercaptoethanol and Relationships to 19 S and 7 S Antibodies. Edward S. Murray, Jane M. O’Connor and Jakob A. Gaon .................. 718

The Suppressive Role of Mouse Peritoneal Phagocytes in Aggutinin Response. Eugene H. Perkins and T. Makinodan .................. 736

Use of Polistes Venom in Petrolatum: Arlacel Repositories to Immunize against Yellow Jacket Wasp Stinging Allergy. Mary Hewitt Lovelless and Thomas M. Nall .................. 748

Antigenic Activity of N-Ethylisatin 3-Thiosemicarbazone in Vaccinia-Infected Mice. Ralph Pollikoff, Melvin Lieberman, Nancy E. Lem and Edward J. Foley .................. 752
