Immunologic Unresponsiveness Appearing after Topical Application of Contact Sensitizers to the Guinea Pig. EDMUND D. LONEY ................................................... 397
Distribution of Allelic Allotypes among \( \gamma \)-Immunoglobulins and Purified Anti-Hapten Antibodies from the Same Rabbit. CYNTHIA A. LARK, HERMAN N. EISEN AND SHELDON DRAY .................................................. 404
Purification of Complement-Fixing Antigen of \( Rickettsia orientalis \). YUZURO KOBAYASHI AND NOBUYOSHI TACHIBANA ........................................... 412
An Adaptation of the Immunelectrophoretic Method for the Use of Chicken-Precipitating Antisera. C. H. TEMPELIS AND MARY F. LOFY ........................................... 418
Interrelationship of Adenovirus (Type 4) and Papovavirus (SV-40) in Monkey Kidney Cell Cultures. W. B. BEARDMORE, M. J. HAVLICK, A. SERAFINI AND I. W. MCLEAN, JR. ................................................... 422
Effect of Variation in Antibody-Hapten Association Constant upon the Biologic Activity of the Antibody. GREGORY W. SISKIND AND HERMAN N. EISEN ......................... 436
The Solubility and Other Physicochemical Properties of Human \( \gamma \)-Globulin Labeled with Fluorescein Isothiocyanate. LAURENCE H. FROMMHAugen ................................................... 442
The Heterogeneity of Combining Sites of Antibodies as Determined by Specific Immunoabsorbents. I. A Rapid Micromethod of Fractionation of Antibody. MASAYASU KITAGAWA, YASUO YAGI AND DAVID PRESSMAN ........................................................................ 446
The Heterogeneity of Combining Sites of Antibodies as Determined by Specific Immunoabsorbents. II. Comparison of Elution Patterns Obtained with Anti-p-azobenzoate Antibodies by Different Kinds of Immunoabsorbent and Eluting Hapten. MASAYASU KITAGAWA, YASUO YAGI AND DAVID PRESSMAN ........................................................................ 455
Heterogeneity of Sheep Diphtheria and Tetanus Antibodies. R. F. LOCKE and D. SEGHE ................................................... 480
Detection of Tissue Isoantigens on Primary and Serial Heteroploid Cell Lines of Human Origin by the Mixed Agglutination Technique. RICHARD S. METCHAR, JOHN F. FLANAGAN and CHESTER M. ZMIEJEWSKI ........................................................................ 494
The Transfer of Antibodies from Ewes to Their Lambs. R. HULLIDAY ........................................................................ 510
Some Immunologic Properties of Human Glomerular Basement Membrane. IV. Immediate or Delayed Nephritis Induced in Rabbits by Sheep Anti-Human Glomerular Basement Membrane Sera. RAYMOND WILLIAM STEBLY ................................................... 517

Continued on page 2
Persistent Altered Phenotypic Expression of Allelic \( \gamma \)-G-Immunoglobulin Allotypes in Heterozygous Rabbits Exposed to Isoantibodies in Fetal and Neonatal Life. 

ROSE-MAGE ANn SHELDON DRAY ................................................ 525

Identification of Intrinsic Factor Autoantibody and Intrinsic Factor in Man by Radioimmunodiffusion and Radioimmunoelectrophoresis. I. MICHAEL SAMLOFF AND EUGENE V. BARNETT ........................................................... 536

Studies on Synthetic Polypeptide Antigens. XIV. Variations in Antibody Production among Rabbits of Different Inbred Strains. THOMAS J. GILL, III ............ 542

Anti-Bovine Serum Albumin Specificity and Binding Affinity after Termination of Tolerance to Bovine Serum Albumin. WILLIAM D. LINSWORTH AND WILLIAM O. WEIGLE .................................................. 546

Hemolysin Titration Based on Fixation of the Activated First Component of Complement: Evidence That One Molecule of Hemolysin Suffices to Sensitize an Erythrocyte. TIBOR BORSOS AND HERBERT J. RAPP ..................................... 559

Immunochemical Study on Rat Urinary Proteins: Their Relation to Serum and Kidney Proteins (Chromatographic Separation of the Major Urinary Protein). Bao-Linh Dinh, Armand Tremblay AND Didier Dufour .............................. 574

THE JOURNAL OF IMMUNOLOGY

Information for Subscribers

Published monthly, beginning January, 1929. (From 1916-1925, and in 1928 Volumes I-X, inclusive, and Vol. XV published bi-monthly.)

The Subscription price is $28.00 per year in U.S.A.; $29.25 in Canada; $30.00 elsewhere. Single copies, when available, are $2.75 in U.S.A.; $3.00 elsewhere. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association’s Treasurer, Dr. Sheldon Dray, American Association of Immunologists, 9650 Wisconsin Avenue, Bethesda, Md. 20014. All other subscriptions should be sent to the publishers.

Change of address: Publisher must be notified 60 days in advance. Journals undeliverable because of incorrect address will be destroyed. Duplicates can be obtained (if available) from the publisher at the regular price of single issues.

New subscriptions and renewals are entered to begin with the first volume of the year when subscription is received. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be refunded to the subscriber.

Subscriptions should be renewed promptly: To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Correspondence concerning all business matters should be addressed to
