This information is current as of July 26, 2017.
The Effect of Active and Inactive Rheumatoid Factors on Tolerance to Human γ-Globulin in Swiss Mice. Miguel M. Azar ..................................... 445
Studies on Brain Antigens. I. Water Soluble Antigenic Proteins of Rat Brain. Catherine F. C. MacPherson and Athanasia Laskopoulos ................. 450
Density Separable Fractions during Growth of Measles Virus. Yoshio Numazaki and David T. Karzon ......................................................... 458
Soluble Antigen of Measles Virus. Yoshio Numazaki and David T. Karzon ......................................................... 470
Failure of Thymectomy in Newborn Guinea Pigs to Influence Contact Sensitization to Dinitrochlorobenzene. Robert S. Bart, Ronald Stritzler and Rudolf L. Baer ......................................................... 477
Delayed-Type Contact Hypersensitivity Elicited in Epithelia of Vagina, Uterus and Colon of the Guinea Pig. Egon Macher and Volkmar Dörner ........ 484
Assay of Coxiella burnetii by Enumeration of Immunofluorescent Infected Cells. Nicholas Haron and Kenneth O. Cooke ........................................ 492
Serum Immunoglobulin Levels in Human Malaria and Their Relationship to Antibody Production. J. E. Tobie, D. C. Abele, S. M. Wolff, P. G. Contacos and C. B. Evans .... 498
Studies on Japanese B Encephalitis Virus Vaccines from Tissue Culture. VIII. Formalin Inactivated OCT-Wild Strain Vaccine. Medhat A. Darwish and William McD. Hammon ......................................................... 506
Microdetermination of Shigella Hemagglutinins in Human and Rabbit Sera with Monovalent and Polyvalent Antigens. Kenneth C. Hackett, Betty M. Mattex and John D. Nelson ........ 517
The Sedimentation Behavior of Rhinovirus Neutralizing Activity in Nasal Secretion and Serum following the Rhinovirus Common Cold. Roger D. Rossen, R. Gordon Douglas, Jr., Thomas R. Cate, Robert B. Couch and William T. Butler ......................................................... 532
Retention of Histologic Characteristics and Antigens in Organ Cultures of Rhesus Thyroid. Thomas D. Flanagan, Almen L. Barron, Ernst H. Beutner and Ernest Wittebery ......................................................... 539
Inactivation and Density Studies with Para-Adenovirus 7 (SV40-Adenovirus “Hybrid” Population). Janet S. Butel and Fred Rapp ......................................................... 546
Antibody Formation Initiated in Vitro. III. Antibody Formation and Allotypic Specificity Directed by Ribonucleic Acid from Peritoneal Exudate Cells. F. L. Adler, M. Fishman and S. Dray ......................................................... 554
PCA and RPCA in Guinea Pigs with Rabbit and Guinea Pig Antibodies and Different Antigens. Zoltan Ovary, Edward Spitz and Csaba De Szalay ........ 559
