THE JOURNAL OF IMMUNOLOGY

Contents for July

Highly Specific Lung Localizing Antibodies. Osamu Tsuzuki, Yasuo Yagi and David Pressman .............................................................. 1

The Immune Response of the Bovine Species Infused Intramammarily with a Semi-Purified Preparation of the Flagella of Salmonella Bacteria. K. L. Smith and R. M. Porter ........................................... 10

“Protein A” from Staphylococcus aureus. III. Reaction with Rabbit γ-Globulin. Arne Forsgren and John Sjöquist ............................................. 19

Allelic Light Chain Allotype Distribution in Purified IgG and IgM Rabbit Antibodies. Leon W. Hoyt and Rose Mage ............................................. 25

Comparison between Hartley and Strain 13 Guinea Pigs—Antibody Production and Delayed Hypersensitivity. J. Munoz ........................................... 31

Human Diphtheria Antitoxin in Immunoglobulin Classes IgG and IgA. Richard W. Newcomb and Kimishige Ishizaka ........................................... 40

Preparation and Properties of Antibody Directed Specifically against the Neuraminidase of Influenza Virus. R. G. Webster and W. G. Laver .............. 49

Disaggregated Human Erythrocyte Membranes and Blood Group Activity. Floyd A. Green ................................................................. 56

Selective Immunoglobulin Deficiencies in Rats Infected with Moloney Virus. Natalie E. Cremer ................................................................. 71

Biologic Activities of Aggregated γ-Globulin. VIII. Aggregated Immunoglobulins of Different Classes. Teruko Ishizaka, Kimishige Ishizaka, S. Salmon and Hugh Fudenberg ................................................................. 82

Desensitization to Delayed Hypersensitivity Reactions: With Special Reference to the Requirement for an Immunogenic Molecule. Stuart F. Schlossman and Herbert Levine ................................................................. 111

Reaction of Dissociated IgM Anti-γ-Globulins with Rabbit Immunoglobulin G (IgG). Ralph E. Schroenhorfer ................................................................. 115

Reaction Kinetic Studies of the Antigen Antibody Reaction. Robert P. Tengerdy ... 126

Immunoglobulins in Serum and Nasal Secretions following Infection with Type 1 Parainfluenza Virus and Injection of Inactivated Vaccines. Charles B. Smith, Joseph A. Bellanti and Robert M. Chanock ................................................................. 133

The Titer and Avidity of Natural Antisheep Hemolysins in X-Irradiated Rabbits. Laurence R. Draper and John R. Owens ................................................................. 142

Protein-Carbohydrate Interaction. IX. Application of the Quantitative Hapten Inhibition Technique to Polysaccharide-Concanavalin A Interaction. Some Comments on the Forces Involved in Concanavalin A-Polysaccharide Interaction. Lucy L. So and I. J. Goldstein ................................................................. 158

Contents continued on next page
Studies on Antigenic Structure of Bovine Aortic Intima. FELIX MILGROM, HANS W. INTORP AND ERNEST WITEBSKY ............................................ 164
The Antigens of Vesicular Stomatitis Virus. III. Structure and Immunogenicity of Antigens Derived from the Virion by Treatment with Tween and Ether. F. BROWN, B. CARTWRIGHT AND C. J. SMALE ......................... 171
Effect of Phytohemagglutinin (PHA) on an Antibody-Forming System. N. GENGOZIAN AND R. F. HUBNER .................................................... 184
Immunologic Responses in the Axolotl, *Siredon mexicanum*. YI-CHUAN CHING AND RALPH J. WEDGWOOD .......................................................... 191
The Influence of the Dose of Thyroid Extract and Mycobacteria upon Experimental Autoimmune Thyroiditis in Inbred Histocompatible and Random-Bred Guinea Pigs. PHILIP R. B. McMaster, EDWIN M. LERNER, II, MICHAEL KRYHAKOS AND PETER S. MUeller ........................................................ 201
The Transfer of Allergic Thyroiditis in Histocompatible Guinea Pigs by Lymph Node Cells. PHILIP R. B. McMaster AND EDWIN M. LERNER, II .................................................. 208
Herpes Simplex Neutralizing Antibody—Quantitation of the Complement-Dependent Fraction in Different Phases of Adult Human Infection. HERBERT S. HEINEMAN .. 214
The Development of Autoimmune Thyroiditis in Rabbits following Injection of Aqueous Preparations of Heterologous Thyroglobulins. W. O. WEIGLE AND R. M. NAKAMURA ............................................................ 223
The Role of Antibodies in the Ingestion of Aldehyde-Treated Erythrocytes Attached to Macrophages. M. RABINOVITCH .................................................. 232
Wasting Disease Induced with Cortisol Acetate. I. Studies in Germ-Free and Conventionally Reared Mice. NORMAN D. REED AND JOHN W. JUTILA ............................... 238
The Antibody Response in Nasal Washings and Serum to *S. Typhosa* Endotoxin Administered Intravenously. ROGER D. ROSEN, SHELDON M. WOLFF AND WILLIAM T. BUTLER .......................................................... 246
Evidence for Two Tissue Specific Antigens of the Lung in Rats. F. DE HALLEUX ....... 255

THE JOURNAL OF IMMUNOLOGY

Information for Subscribers

Published monthly, beginning January, 1929. (From 1916-1925, and in 1928 Volumes I-X inclusive, and Vol. XV published bi-monthly.)

The subscription price is $28.00 per year in U.S.A.; $29.25 in Canada; $30.00 elsewhere. Single copies, when available, are $2.75 in U.S.A.; $3.00 elsewhere. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association's Treasurer, Dr. Sheldon Dray, American Association of Immunologists, 9660 Rockville Pike, Bethesda, Md. 20014. All other subscriptions should be sent to the publishers.

Change of address: Publisher must be notified 60 days in advance. Journals undeliverable because of incorrect address will be destroyed. Duplicates can be obtained (if available) from the publisher at the regular price of single issues.

New subscriptions and renewals are entered to begin with the first volume of the year when subscription is received. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be refunded to the subscriber.

Subscriptions should be renewed promptly: To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Correspondence concerning all business matters should be addressed to
