THE JOURNAL OF IMMUNOLOGY

Contents for December

Some observations on the Immunopathology of Virus-Induced Tumors. EDWIN H. LENNETTE .......................................................... 1055

Erratum .................................................................................. 1067

Studies on the Mechanisms of Hypersensitivity Phenomena. XVI. In Vitro Assays of Reaginic Activity in Human Sera: Effect of Therapeutic Immunization on Seasonal Titer Changes. DAVID A. LEVY AND ABRAHAM G. OSLER .................................................. 1068

Studies of the Sensitization in Mice Induced by Cellular Fractions Containing H-2 Antigens. JOSEPH M. CORSON, LEWIS T. MANN, JR. AND GUSTAVE J. DAMMIN ............................................. 1078

Enhancement Activity of Mouse Immunoglobulin Classes. GEORGE L. IRVIN, III, JOHN C. EUSTACE AND JOHN L. FAHEY .......................................................... 1085

Induction of Interference and Interferon Synthesis by Non-Replicating Molluscum Contagiosum Virus. ALVIN E. FRIEDMAN-KIEN AND JAN VILcek ........................................................................ 1092

The Fate of Group A Streptococci following Phagocytosis. In Vitro Phagocytic Studies of Iso-Kupe-Labeled Streptococci. ELIA M. AYOUND AND LEWIS W. WANNAMAKER 1099

Spectrum of Human Cytomegalovirus Complement-Fixing Antigens. GORDON R. DREESMAN AND MATILDA BENYES-MELNICK .................................................. 1106

Studies on the Immunoglobulins Which Stimulate the Ingestion of Glutaraldehyde-Treated Red Cells Attached to Macrophages. M. KABINOVTICH ...................................................... 1115

Cutaneous Hypersensitivity Reactions of Guinea Pigs to Proteinaceous Transplantation Antigen. BARRY D. KAHAN ........................................................................ 1115

The Role of Antibody Bivalence in the Neutralization of Bacteriophage. NORMAN R. KLINMAN, CAROLE A. LONG AND FRED KARUSH .................................................. 1128

Photodynamically Inactivated Vaccines Prepared by Growing Viruses in Cells Containing Neutral Red. CRAIG WALLIS, CHARLOTTE SCHEIBIS AND JOSEPH L. MELNICK ...................................................... 1134

Rubella Virus: Role of Interferon during Infection of African Green Monkey Kidney Tissue Cultures. KEN T. WONG, SAMUEL BARON AND THOMAS G. WARD .................................................. 1140

Delayed Hypersensitivity to Trichinella Spiralis. I. Transfer of Delayed Hypersensitivity by Lymph Node Cells. CHARLES W. KIM, HERBERT SAVEL AND L. D. HAMILTON .................................................. 1150

Delayed Hypersensitivity to Trichinella Spiralis. II. Antibody Response in Recipients after Transfer of Delayed Hypersensitivity. CHARLES W. KIM, MAHENDRA P. JAMUAR AND L. D. HAMILTON .................................................. 1156

A Stoichiometric Assay for the Fourth Component of Complement in Whole Human Serum Using EAC'lab and Functionally Pure Human Second Component. SHAUN RUDDY AND K. FRANK AUSTEN .................................................. 1162

Specificity of the Anamnestic Response to a Double Hapten Conjugate in Guinea Pigs Primed with a Single Hapten. BERNARD B. LEVINE .................................................. 1173

Antigenic Properties of the Hexosamine Polymer of Streptococcal Mucoprotein. WALTER W. KARAKAWA, HENRY LACKLAND AND RICHARD M. KRAUSE .... 1178

Species-Specific Antigens from Trachoma and Inclusion-Conjunctivitis (Chlamydial) Agents. NEYLAN A. YEDROS ........................................................................ 1183

Identification of b-E-Antibodies as a Carrier of Reaginic Activity. KIMISHICZ ISHIZAKA AND TERUKO ISHIZAKA .................................................. 1187

Characterization and Isolation of Specific Renal Tubular Epithelial Antigens. THOMAS S. EDGINGTON, RICHARD J. GLASSOCK, J. IAN WATSON AND FRANK J. DIXON .................................................. 1199

Immunoochemical Quantitation of the Third, Fourth and Fifth Components of Human Complement: Concentrations in the Serum of Healthy Adults. PETER F. KOHLER AND HANS J. MULLER-EBERHARD .................................................. 1211

Contents continued on next page
Contents cont’d

Prevention of SV- Virus Oncogenesis in Hamsters. II. The Effect of Thymectomy on Induction of Tumor Resistance by SV-Transformed Human Cells. ANTHONY J. GIRARDI AND ROBERT A. ROOSA .......................................................... 1217

Influence of the Physical State of Formalinized Vaccinia Virus Particles on Surviving Plaque Titer: Evidence for Multiplicity Reactivation. KWANG SOO KIM AND D. G. SHARP ................................................................. 1221

Phylogeny of Immunoglobulin Structure and Function. II. Immunoglobulins of the Nurse Shark. L. WILLIAM CLEM, FRANCIA DE BOUTAUD AND M. MICHAEL SIGEL . . 1226

Fractionation of Splenic Antibody-Forming Cells on Glass Bead Columns. PAUL H. PLOTZ AND NORMAN TALAL .............................................................. 1236

Antibody Concentration and Temperature as Determinants of In Vitro Sensitization and Histamine Release in Isolated Cardiac Tissues. GERALD G. VUREK, DENIS J. PRAGER AND GEORGE A. FEIGEN .................................................. 1243

Studies on Bovine Glomeruli. II. Localization of Glomerular Collagen. JOHN T. SHARP, M. SIDNEY ANDERSON AND MARTIN D. LIDSKY .............................. 1254

Antigenicity of Chemically Modified Bovine Serum Albumin. A. F. S. A. HABEEB ............................................................. 1264

Rapid Passive Transfer of Allergic Encephalomyelitis. SEYMOUR LEVINE AND EUGENE J. WENK .................................................................................. 1277

The Heterogeneity of Combining Sites of Anti-Benzylpenicilloyl Antibodies Obtained from Individual Rabbits: Fractionation of Antibodies with a Specific Immuno-
adsorbent. TSUYOSHI ATSUMI, KIYOSHI NISHIDA, YOSHIKINOSHITA, KOJI SHIBATA AND YOSHIHIKO HORIUCHI ................................................................ 1286

Announcement: Communications ........................................................................................................ 1294

Volume Index ............................................................................................................................... 1295
