

A New Partnership in Diagnostic Medicine

Enzymology/Immunology

Over 40 high-quality immunology products and specific slide systems originated by ICL Scientific are now being marketed through BMC's national sales organization:

- o radial immunodiffusion and combination specialty kits
- o antisera to human proteins
- o custom prepared control sera
- o serologic agglutination tests

You can be assured that the long tradition of original research and exacting production methodology associated with our products will be continued.

Please contact your BMC representative or distributor for more details.
