SUBJECT INDEX

- Adenovirus**
capsids, antigenic determinants of, 19, 25
hexon determinants in, 25
- Adjuvant, Freund's, denaturation of protein antigens by, 270**
- Albumin, bovine serum antibodies, specific removal of, 1337**
- Alloantigens**
histocompatibility, specific, reactivity to, 1624
lymphocytes reactive to, 1030
Thy-1.2, antigenic determinants of, 1669
- Alloantiserum against Ia determinant, 929**
- Allotype**
expression of closely linked genes, 16
Gm, sensitized by human tonsil lymphocytes, 1045
preference, of antibodies, 1010
- Allotypic determinants, group a, antibodies against, 387**
- Amyloid disease, thymosin and, 156**
- Amyloid protein AA, serum protein antigenically related to, 1151**
- Anaphylaxis, slow reacting substance of enhancement of, with cysteine, 392**
release of, from human leukocytes, 1677
- Antibodies**
adenovirus, cross-reactivity of, 19
against plasma receptor of plasmacytoma, 1391
allotype
isolation and characterization, 387
allotype preference of, 1010
and complement, lysis of tumor cells by, 661
and host resistance to *Trypanosoma cruzi*, 1208
anti-immunoglobulin, DNA synthesis induced by, 446
anti-Rh, idiotypic specificities, 1536
avidity, T cell-mediated regulation of, 1385
BSA, specific removal of, 1337
-coated erythrocytes
enumeration and isolation of rabbit T and B cells by using, 1306
K cell cytotoxicity against, 315
-complement mediated killings of tumor cells, 1272, 1276
-dependent cell-mediated cytotoxicity, 885
ammonium chloride and, 1170
to target cells infected with Herpes simplex virus, 194
-dependent cellular cytotoxicity, 944
enhanced production of, 676
formation
after infection, 657
reaginic, 1257
hepatitis A, 349
IgG, and enhanced response to DNP-AE-dextran, 527
IgM and IgG, genetic control of production, 1725
- in sera of tumor-bearing mice, 606
-induced changes of malarial sporozoites, 859
-mediated cell cytotoxicity in defined system, 253
-mediated nuclease inactivation, 959
monotypic to herpes simplex virus, 898
production
enhancement by extract of *Bordetella pertussis*, 178
macrophage requirements of CR⁻ and CR⁺ B lymphocytes for, 1447
reaginic antibody formation, suppression of, 1711
regulation of antibody-mediated cell cytotoxicity by, 253
response, *see* Response, antibody
-secreting lymphocytes associated with erythrocyte autoantibody responses, 1051
serum, levels, factors influencing after immunogenic antigen dose, 52
specific
in *Trypanosoma cruzi* infections, 755
plaque formation due to passive transfer of, 1016
to isoniazid and isonicotinic acid, 965
synthesis, increase by trypsin, 1354
thymotoxic, effects on serum thymic hormone level, 1756, 1757
to codons, 1629
to Newcastle disease virus, 1089
- Antigen**
antigenic determinants
of adenovirus capsids, 19, 25
of *Neisseria meningitidis* lipopolysaccharide, 842
of Thy-1.2 alloantigen, 1669
on hemagglutinin subunits of influenza viruses, 336
-binding cells, T and B, for β -galactosidase, 915, 923
-binding lymphocytes associated with erythrocyte autoantibody responses, 1051
blocking of antigenic sites in the F(ab) region, 1532
carcinoembryonic
detection of, 766
role of plasmin on double antibody radioimmunoassay of, 761
cross-reactivity of, 1347
differentiation expressed by lung tumor, 1236
distribution and excretion after immunization, 41
dose, effects on antibody response, 1400
-fed macrophages, T lymphocytes sensitized, 1059
hepatitis A, radioimmunoassay for, 349
histocompatibility, lymphocytes reactive to, 1030
HLA gene complex associations, 1065
host, phenomenon in schistosomiasis, 1093
- Ia, on lymphocytes, 371
immunogenic dose, serum antibody levels after immunization with, 52
-induced DNA synthesis, suppression of, 379
-induced suppression by cytotoxic agents, 1350
lack of antigenic specificity and immunogenetic requirements of allogeneic suppressive factor, 1695
liver-specific, 1228
macrophage-specific cell surface, 273
MIs locus, 835
molecules, multispecific Ia, 549
processing system, relation to age-dependent changes in sensitivity to antigen, 218
protein
associated with a mycobacterial glycolipid, delayed hypersensitivity to, 482
denaturation of, by Freund's adjuvant, 270
receptor, of plasmacytoma, antibody against, 1391
recognition, function of macrophages in, 1482
regulation of antibody-mediated cell cytotoxicity by, 253
sensitivities, helper T cells distinguished by, 1373
sensitivity change with age, 218
shared between melanoma cells and BCG, 1407
-specific and nonspecific mediators of T cell/B cell cooperation, 1373, 1379
-specific suppressive T cell factor in regulation of antibody response, 542
T-independent, macrophage requirement of, 1579
thermostable, characteristic for rat intestinal tumors, 30
thymus-independent, in CBA/N mice, unresponsiveness to, 301
to Newcastle disease virus, detection of, 1089
tumor
immune response to, 791, 800
release of, 1302
soluble, 1324
- Antisera**
production to murine IgE, 881
subpopulation of human T lymphocytes reactive with heteroantiserum to human brain, 1041
- Ascaris-induced phosphorycholine idio-type, 1105**
- Aspermatogenesis, experimental allergic orchitis and, 619**
- Autoimmune disease, *in vitro* induction of, 159**
- Bacteria, *Escherichia coli*, *see* *Escherichia coli***

- Basophil
 complement-induced histamine release from, 639
 degranulation, in contact dermatitis, 687
 reaction, inhibition of, 1646
- BCG-induced lymphocyte trapping, 1587
- Bordetella pertussis*
 containing histamine sensitizing factor, 178
 effect on antibody response to pneumococcal polysaccharide, 989
- Calcium ionophore A23187, release of SRS-A from leukocytes by, 1677
- Capsids, adenovirus, antigenic determinants of, 19, 25
- Carcinoembryonic antigen
 detection of, 766
 role of plasmin on double antibody radioimmunoassay of, 761
- Carrier-determined tolerance, loss of, 223
- Cells, *see also* specific types of cells
 accessory
 and the T cell response to PHA, 868
 function in PHA response, 876
 adherent, mediators derived from, 1466
 allogeneic, inhibition of response to, 1244
 anti-B cell serum, 1224
 anti-T cell serum, 1646
 antibody dependent cell-mediated cytotoxicity, 885
 ammonium chloride and, 1170
 to Herpes simplex virus-infected target cells, 194
 antibody-dependent cellular cytotoxicity, 944
 autologous, lymphocyte transformation induced by, 310
 B, maturation, suppression of, 1664
 B cell clones, restricted, 1400
 B and T, interactions in response to PHA and Con A, 437
 cell-mediated cytotoxicity, 1561
 suppressor activity in, 167
 cell-mediated immunity
 against transmissible gastroenteritis, 1000
 suppressor cells in, 1115
 cell-mediated lympholysis, effects of sodium periodate on, 947
 cell-membrane IgD, 1173
 cell surface immunoglobulin, 409
 cellular collaboration in the proliferative response to PHA and Con A, 437
 cellular immune function, age-associated involution of, 982
 cellular immunity
 in pyelonephritis, 778
 to mumps, 12
 cellular mechanism of endotoxin unresponsiveness, 454
 cellular receptors for lymphotoxin, 184
 complement receptor-bearing, 595
 cytomegalovirus-infected, 1566
 cytotoxic effector, specific selection of, 1624
 β -galactosidase binding, 915
 helper, regulation of activity by adsorbable T lymphocytes, 80
- HSV-infected, neuraminidase and, 489
- immune
 and spherules, hemolysis by, 970
 rat spleen, response to Gross virus-induced lymphoma, 1367
 transfer of allergic orchitis with, 619
- immunosuppressor, in tumor-bearing hosts, 791, 800
- inhibitor, quantitative measurement of, 1020
- K cell cytotoxicity in tumor-bearing mice, 315
- lines
 lymphoid, isolation of β 2-microglobulin-deficient clones from, 570
 lymphoid, measles replication in, 1084
 lymphoid, subpopulations, 1145
 lymphoblastoid, infection with measles virus, 89
 melanoma, cytotoxicity of normal lymphocytes against, 342
- Listeria
 B cell adjuvant, 590
 cell wall fraction, 590
- LM activated peritoneal and lymphoid, 579
- lymph node, responses to mitogenic and non-mitogenic lectins, 696
- lymphoid
 differentiation of, 1607
 of nonresponder mice, immunosuppressive factor(s) from, 305
 parental, GVH reactions induced by, 1618
 protective and pathogenetic effects of, 1332
 septate-like junctions between, 1582
 stimulation by syngeneic plasma cell tumors, 202
- macrophage-specific cell surface antigen, 273
- mammary tumor virus-induced, 610
 -mediated cytotoxicity, secondary, 430
 -mediated immunity to Friend virus-induced leukemia, 236, 244, 1419
- melanoma
 and BCG, 1407
 release of tumor antigens by, 1302
- Merrit B cell system, 1704
- mixed leukocyte culture, suppressive effect of, 716
- mononuclear, immunoglobulin-positive, 1426
- protection by major lymphoid cell compartments, 976
- rat mast, development, 747
- response, plaque-forming, 279
- spleen
 and thymus, suppression of tumor-specific cytotoxicity by, 288
 cytotoxicity toward autologous tumor, 606
 decline of mitogen reactivity of, 982
 HGG tolerant suppression by, 1640
 hypogammaglobulinemia transfer by, 1673
 secondary response to DNP, 731
- SRBC, high and low, response to, 1725
- subpopulations, lymphoid, 1145
- suppressive T cell factor, 542
- suppressor
 activity, *in vitro* generation of, 167
 effect of cytotoxic agents on, 1350
 in cell-mediated immunity, 1115
 in newborns, 682
 in tolerance, 1157
 in tumor spleens, 1342
 T, function, 647
 surface receptors on, 1313
 syngeneic somatic hybrid, 623
- T
 antigen-binding, 923
 clonal expansion, 1490
 effects of mouse thymic virus, 1613
 function, and amyloid disease, 156
 function, adjuvant regulation, 710
 helper, trypsin as a substitute for, 1354
 immunity to malaria, 1280
 increased suppressor activity, 735
 independent response to DNP-AE-dextran, 527
 independent suppression, 1182
 killer, for H-2^b targets, 1601
 mediated lysis, protein synthesis and, 146, 150
 mediated lytic cycle, 150
 mediated regulation of antibody avidity, 1385
 memory, cytotoxic, hapten-directed, 403
 mitogen concanavalin A, thymus-independent response by, 416
 pre-killer and memory, differentiation, 1490
 regulation of IgG antibody production, 904
 rosette formation, SRBC/lymphocyte ratio in, 1397
 suppressor for IgE and IgG, 1257
- T and B
 cooperation, 1373, 1379
 membrane immunoglobulins, 847
 responses of, to mitogens, 1459
- target
 correlation of binding and cytotoxicity in, 184
 lymphotoxin in destruction of, 562
 receptor for IgE, 319
- thymus
 allogeneic suppressive factor from spleens repopulated with, 1688
 differentiation of mast cells from, 747
 thymus-derived, activation of, by mitogens, 357
- tumor
 killing of, by antibody and complement, 1272, 1276
 lysis of, by antibody and complement, 661
 within non-lymphoid tumors, 1571
- Chemoattraction of neutrophils by cytotoxic sera, 554
- Chimeras, canine radiation, infusion of donor lymphocytes into, 1212
- Coccidioides immitis*, spherules of, hemolysis of immune cells by, 970
- Codons, antibodies to, 1629
- Cold exposure, effect on immunoglobulin metabolism, 106
- Collagen-platelet interaction, C1q interac-

- tion of, 162
 Colostrum, adsorption of tolerogen from, 1204
 Complement
 activation in semi-solid medium, 75
 C1q inhibition of collagen-platelet interaction, 162
 C1r
 activation by proteolytic cleavage, 504
 characterization of, 496
 C γ 2
 and C γ 3 homology regions of IgG, 518
 fragment from IgG, 510
 C2 deficiency, hereditary, 1065
 C3
 fragments obtained by limited proteolysis of, 1682
 insolubilization of, in agar, 75
 metabolism during protozoan infection, 1284
 nephritic factor: stabilization of fluid phase and cell-bound alternative pathway convertase, 1
 C5b-9 complex, 1431
 change in dissociable membrane lipids by, 1163
 detection of immune complexes by modified ¹²⁵I-C1q binding test, 232
 fixation, by immune complexes, 1363
 induced histamine release, 639
 isolation of alternative pathway C3, 568
 isolation of sixth and seventh components, 263
 neutrophil receptors for IgG and, 892
 pathway activators, 821
 receptor-bearing cells, 595
 regulation of antibody-mediated cell cytotoxicity by, 253
 Complexes
 immune
 complement fixation by, 1363
 detection by ¹²⁵I-C1q binding test, 232
 Concanavalin A
 cellular collaboration in the proliferative response to, 437
 preparations, contamination, 1197
 T cell mitogen, modification of thymus independent response by, 416
 Convertase
 alternative pathway C3, isolation of, 568
 fluid phase and cell-bound alternative pathway, 1
 Corticosteroids, effect on IgG synthesis, 1592
 Cross-reactivity of adenovirus antibodies, 19
 Cysteine, SRS-A release with, 392
 Cytolysis, immune, suppression of, 1020
 Cytomegalovirus
 effect on responses of T and B cells to mitogens, 1459
 IgG binding, 1566
 Cytomegalovirus-infected fibroblasts, IgG-Fc receptor in, 772
 Cytotoxic T activity, specific positive selection of, 1624
 Cytotoxicity
 against tumors, 1512
 antibody-dependent, 944
 cell
 antibody-mediated 253
 K, in tumor-bearing mice, 315
 -mediated, 194, 236, 244, 885, 1170
 spleen, toward autologous tumor, 606
 lymphotoxin and lymphocyte, 562
 serum against *Trypanosoma rhodesiense*, 1005
 specific for heterologous sera, 1561
 spontaneous, and lymphotoxin, 342
 tumor-specific, suppression of, 288
 Cytotoxins, heterogeneity of, 807
 Dermatitis, contact, basophil degranulation in, 687
 Diet and immunity of NZB mice, 782
 Digestion, proteolytic, of human properdin, 1099
 Dinitrofluorobenzene, tolerance and contact sensitivity to, 704
 Disease, induction in immunosuppressed mice, 475
 DNA synthesis
 induced by anti-immunoglobulin antibodies, 446
 suppression of, 379
 Encephalitis, anti-encephalitogenic protein, spinal, 227
 Encephalomyelitis
 autoimmune, 1439
 experimental allergic, treatment of, 126
 Endotoxin
 role in B lymphocyte colony formation, 635
 unresponsiveness, cellular mechanism of, 454
 Enzyme
 -linked procedure for detection and estimation of surface receptors on cells, 1313
 -pretreated tumor cells, 661
 Eosinophil
 chemotaxis in bullous pemphigoid, 112
 stimulation promoter, lymphokine, 1078
 Epstein-Barr viral antigen expression, 310
 Erythrocytes
 antibody-coated
 enumeration and isolation of T and B cells by using, 1306
 in tumor-bearing mice, K cell cytotoxicity against, 315
 autologous, hemolysis of, by immune cells and spherules, 970
 -binding lymphocytes, 1051
 SRBC, high and low, response to, 1725
Escherichia coli
 antigenic and mitogenic responses to, 1129
 bacteria, antigenic and mitogenic responses to, 1129
 Fab' fragment of IgG with β -D-galactosidase from, 1554
 Exocrine secretions, secretory components from, 994
 Factor
 allogeneic suppressive, 1688, 1695
 histamine sensitizing, *see under* Histamine
 mine
 migration inhibitory, *see* Migration inhibitory factor
 serum-demyelinating in EAE, 1439
 suppressing, splenic, 1251
 Fibroblasts, cytomegalovirus-infected, 772
 Flagellin, polymerized, tolerance to, 1220
 Fragments, of C3, 1682
 Freund's adjuvant, denaturation of protein antigens by, 270
 β -Galactosidase-binding cells, 915
 Gastroenteritis, transmissible, cell-mediated immunity against, 1000
 Genes, allotype expression of, 16
 Glands, mammary, immunization in, 1295
 L-Glutamic acid ⁶⁰-L-alanine ³⁰-L-tyrosine ¹⁰(GAT), immunosuppressive factors from mice primed with, 305
 Gonococci, killing of, by human serum, 1652
 Graft-*vs*-host disease, effect on Fc receptor lymphocytes, 210
 Grafts, heart, effect of heat-killed streptococci on, 86
 Hapten
 -carrier system, suppression in, 600
 -directed cytotoxic T cell memory, 403
 -protein conjugates
 immunization with, 363
 immunogenicity and tolerogenicity, 1711
 -specific tolerance and immunity in B lymphocytes, 1188
 Hemoglobin, in adjuvant, 270
 Hemolysis, by immune cells and spherules, 970
 Hepatitis A antigen, radioimmunoassay for, 349
 Hepatomas, soluble tumor antigens from, 1324
 Herpes simplex virus
 antibody-dependent cell-mediated, 194
 -infected cells, neuraminidase and, 489
 lymphoproliferative responses to, 1520
 monotypic antibody responses to, 898
 Herpes simplex virus 1 infection, immunologic resistance to, 35
 Hexon determinants in adenovirus, 25
 Histamine
 release, complement-induced, 639
 sensitizing factor, 178
 Hormone level, effects of thymotoxic antibodies on, 1756, 1757
 Hypersensitivity, delayed
 active E rosette test and, 1110
 to proteins associated with a mycobacterial glycolipid, 482
 Hypogammaglobulinemia, transfer of, by spleen cells, 1673
 Immunity
 cell-mediated, suppressor cells in, 1115
 humoral, in aged mice, 731, 735
 T cell, to malaria, 1280
 Immunization, in mammary glands, 1295
 Immunodeficiency, of motheaten mice, 936

- Immunoglobulins**
 anti-Ig stimulation of murine lymphocytes, 1656
 anti-immunoglobulin antibodies, DNA synthesis induced by, 446
 biosynthesis by MOPC 173 myeloma tumor and a variant spleen clone, 65
 cell membrane IgD, 1173
 cell surface, 409
 composition of respiratory fluids, 423
 cyclic AMP in antibody response to anti-immunoglobulin, 534
 cytomegalovirus IgG binding, 1566
 domains, structure and function, 510, 518
 heavy chain variable region allotypic, 117
 homogeneous, purification of, 1662
IgE
 and IgG antibody responses, suppressor T cells for, 1257
 antisera production to, 881
 paucity in milk, 1435
 receptors for, 319
IgG
 antibodies to DNP-AE-dextran, 527
 biologic activities of, 1265
 C γ 2 fragment from, 510
 distribution of effector functions among C γ 2 and C γ 3 homology regions of, 518
 Fab' fragment of, with β -D-galactosidase from *E. coli*, 1554
 -Fc receptor induced in cytomegalovirus-infected fibroblasts, 772
 molecules subpopulations of, 117
 responses to pneumococcal polysaccharide, 904
 -sensitized erythrocytes, 1473
 synthesis, effect of corticosteroids on, 1592
 IgG2a and IgG2b, separate Fc receptors for, 911
IgM
 and IgD-like molecule, polypeptide chain structure of, 409
 and IgG antibodies, genetic control of production, 1725
 complex receptors on lymphocytes, 1199
 -mediated, T cell-independent suppression, 1182
 metabolism of, effect of cold exposure on, 106
 monotypic IgM λ and IgG κ , 743
 myeloma IgG, carrier determined tolerance with, 854
 neutrophil receptors for IgG and complement, 892
 -positive mononuclear cells in human blood, 1426
 radiolabeling of, with ¹⁴C-phenylisothiocyanate, 1526
 serum, elevated, depressed immune competence and, 936
 T and B cell membrane, 847
Immunosuppressive factor(s) from nonresponder mice, 305
Infection
 antibody formation after, 657
 protozoan, C3 metabolism during, 1284
Trypanosoma cruzi, resistance against, 1208
Influenza
 immune response, 336
 virus, antibody response to, 827
Iodine uptake by Obese strain thyroid glands transplanted to normal chick embryos, 1319
Isoniazid, antibodies specific to, 965
Isonicotinic acid, antibodies specific to, 965
Lactobacillus plantarum, peptidoglycans from, 1635
Lectins, effects on cAMP and cGMP levels in lymphocytes, 696
