OPINION

B. H. Waksman 1009 Information Overload in Immunology: Possible Solutions to the Problem of Excessive Publication

CELLULAR IMMUNOLOGY

T. W. Chang and H. N. Eisen 1028 Effects of N'-Tosyl-L-Lysyl-Chloromethylketone on the Activity of Cytotoxic T Lymphocytes

C.-C. Ting and D. Rodrigues 1039 Immunoregulatory Circuit among Macrophage Subsets for T Cell-Mediated Cytotoxic Response to Tumor Cells

H. Wagner, M. Röllinghoff, K. Pflüzenmaier, C. Hardt, and G. Johnschner 1058 T-T Cell Interactions during in Vitro Cytotoxic T Lymphocyte (CTL) Responses. II. Helper Factor from Activated Lyt 1+ T Cells Is Rate Limiting i) in T Cell Responses to Nonimmunogenic Alloantigen, ii) in Thymocyte Responses to Allogeneic Stimulator Cells, and iii) Recruits Allo- or H-2-Restricted CTL Precursors from the Lyt 123+ T Subset

M. L. Thoman and W. O. Weigle 1093 Cellular Requirements for Generation of Thymocyte Stimulatory Factor and Characterization of Its Target Cell

K. Tomonari 1111 Cytotoxic T Cells Generated in the Autologous Mixed Lympocyte Reaction. I. Primary Autologous Mixed Lymphocyte Reaction

A. K. Abbas, L. L. Perry, B. A. Bach, and M. I. Greene 1160 Idiotype-Specific T Cell Immunity. I. Generation of Effector and Suppressor T Lymphocytes Reactive with Myeloma Idiotype Determinants

S. D. Miller, P. J. Conlon, M.-S. Sy, J. W. Moorhead, S. Colon, H. M. Grey, and H. N. Claman 1187 Nature of Hapten-Modified Determinants Involved in Induction of T Cell Tolerance and Suppressor T Cells to DNFB Contact Sensitivity

T. Kalland 1199 Lymphotoxin Production by Subsets of T Cells

D. E. Parks and W. O. Weigle 1238 Maintenance of Immunologic Unresponsiveness to Human γ-Globulin: Evidence for Irreversible Inactivation in B Lymphocytes

L. D. Butler, H. L. Wong, and J. R. Battistico 1245 Use of Immunotolerance to Dissect the Mechanisms Regulating Appearance of Hapten-Specific Killer T Cells in Vivo

H. Golding and M. B. Rittenberg 1284 Differential Sensitivity of IgG Memory Subpopulations to Allogeneic Thymocytes: Positive and Negative Signals

T. Kalland 1297 Reduced Natural Killer Activity in Female Mice after Neonatal Exposure to Diethylstilbestrol

J. Yodoi and K. Ishizaka 1322 Lymphocytes Bearing Fc Receptors for IgE. IV. Formation of IgE-Binding Factor by Rat T Lymphocytes

E. L. Morgan and W. O. Weigle 1330 Polyclonal Activation of Murine B Lymphocytes by Fc Fragments. I. The Requirement for Two Signals in The Generation of the Polyclonal Antibody Response Induced by Fc Fragments

D. M. Keller, J. E. Swierkosz, P. Marrack, and J. W. Kappler 1350 Two Types of Functionally Distinct, Synergizing Helper T Cells

W. L. Farrar, S. B. Mizel, and J. J. Farrar 1371 Participation of Lymphocyte Activating Factor (Interleukin 1) in the Induction of Cytotoxic T Cell Responses

F. L. Owen 1411 A Mature T Lymphocyte Marker Closely Linked to Igh-1 that is Expressed on the Precursor for the Suppressor T Cell Regulating a Primary Response to SRBC
IMMUNOGENETICS AND TRANSPLANTATION

V. J. Ruppert, K. Williams, and J. L. Claffin 1068
Specific Clonal Regulation in the Response to Phosphocholine. I. Genetic Analysis of the Response of a Distinct Idiotype (M511 Id)

A. Singer, K. S. Hathcock, and R. J. Hodes 1079
Cellular and Genetic Control of Antibody Responses. VIII. MHC-Restricted Recognition of Accessory Cells, Not B Cells, by Parent-Specific Subpopulations of Normal F T Helper Cells

H. R. MacDonald and R. K. Lees 1308
Dissociation of Differentiation and Proliferation in the Primary Induction of Cytolytic T Lymphocytes by Alleantigens

M. Minami, D. C. Shreffler, and C. Cowing 1314
Characterization of the Stimulator Cells in the Murine Primary Mixed Leukocyte Response

T. J. Kipps, J. Z. Weinberger, B. Benacerraf, and M. E. Dorf 1344
Comparison of T and B Cell Reactivity to Antigens under Ir Gene Control

B. A. Araneo and J. A. Kapp 1492
H-2-Linked Ir Gene Control of T Cell Proliferative Responses to the Synthetic Terpolymer l-Glutamic acid-L-Alanine-L-Tyrosine (GAT). I. Requirement for T Cell Activation in Responder and Nonresponder Mice

IMMUNOPATHOLOGY

W. E. Harmon, W. E. Grupe, and R. Parkman 1034
Control of Autologous Immune Complex Nephritis. I. Suppression of the Disease in the Presence of T Cell Sensitization

Localization of the P2 Protein in Peripheral Nerve Myelin

T. R. Claudio and M. A. Raftery 1130
Is Experimental Autoimmune Myasthenia Gravis Induced Only by Acetylcholine Receptors?

Antigenic Features of Myelin Basic Protein-Like Material in Cerebrospinal Fluid

Progressive Myelopathy in Older German Shepherd Dogs. I. Depressed Response To Thymus-Dependent Mitogens

F. J. Waxman, R. M. Clemmons, and D. J. Hinrichs 1216
Progressive Myelopathy in Older German Shepherd Dogs. II. Presence of Circulating Suppressor Cells

S. Sawada, M. J. Dauphinée, and N. Talal 1263
Antigen-Specific Factors Produced by Carrier-Primed New Zealand Black Mice

C. C. K. Leung and R. L. Brent 1267
Partial Purification and Characterization of Trypsin-Solubilized Rat Kidney Antigens That Stimulate the Production of Teratogenic Antibodies

J. H. Demenoff, M. J. Ansfield, H. B. Kaltreider, and E. Adam 1365
Alveolar Macrophage Suppression of Canine Bronchoalveolar Lymphocytes: The Role of Prostaglandin E2 in the Inhibition of Mitogen-Responses

E. C. Jong, W. R. Henderson, and S. J. Klebanoff 1378
Bactericidal Activity of Eosinophil Peroxidase

W. R. Henderson, E. C. Jong, and S. J. Klebanoff 1383
Binding of Eosinophil Peroxidase to Mast Cell Granules with Retention of Peroxidatic Activity

A. E. Postlethwaite and A. H. Kang 1462
Characterization of Guinea Pig Lymphocyte-Derived Chemotactic Factor for Fibroblasts

J. M. Davis, P. Dineen, and J. I. Gallin 1467
Neutrophil Degranulation and Abnormal Chemotaxis after Thermal Injury

L. Simchowitz, L. C. Flachbein, I. Spilberg, and J. P. Atkinson 1482
Induction of a Transient Elevation in Intracellular Levels of Adenosine-3',5'-Cyclic Monophosphate by Chemotactic Factors: An Early Event in Human Neutrophil Activation
