**Announcement of Changes in Publishing Schedule and Rates for The Journal of Immunology**

As of January 1, 1986, the following changes will become effective:

The Journal of Immunology will publish twice each month, with 12 issues per volume and two volumes per year.

Subscriptions for domestic members of the American Association of Immunologists will be $75 per year; for foreign members, $875 per year plus postal charges of $855. Nonmember subscriptions for U.S. institutions will be $170 per year; foreign institutions, $170 plus postal charges of $855. Nonmember personal subscriptions will be $150 per year; nonmember personal foreign subscriptions will be $150 per year plus postal charges of $855.

Subscriptions for domestic students will be $36 per year; for foreign students, $36 per year plus postal charges of $855.

Single copies will be $8 each. Foreign postage will be an additional $3 per single copy.

Page charges to authors will be $66 per page.

D. Hansburg and E. Appella

J. Stankova and M. Rola-Pleszczyński

G. Dennert, C. G. Anderson, and J. Warner

H. W. Virgin IV, G. F. Wittenberg, and E. R. Unanue

T. D. Geppert and P. E. Lipsky

G. S. Madonna and S. N. Vogel

J. Lacy, W. C. Summers, and Z. N. Cannellakis

E. Yefenof, V. M. Sanders, E. C. Snow, R. J. Noelle, K. G. Oliver, J. W. Uhr, and E. S. Vitetta

M. Belo, C. Martin, C. Corbel, and N. M. Le Douarin

J. T. Golay, E. A. Clark, and P. C. L. Beverley

Growth and Differentiation in Vitro of the Accumulating Lyt-2−/L3T4− Subset in lpr Mice

The Sites of Antigen-T Cell and Antigen-MHC Interactions Overlap

Fucose-Activated Killer (FAK) Cells: Anomalous Killers with Augmented Cytotoxic Activity

T Killer Cells Play a Role in Allogeneic Bone Marrow Graft Rejection but not in Hybrid Resistance

Immune Complex Effects on Murine Macrophages. I. Immune Complexes Suppress Interferon-γ Induction of la Expression

Immune Complex Effects on Murine Macrophages. II. Immune Complex Effects on Activated Macrophages Cytotoxicity, Membrane IL 1, and Antigen Presentation

Antigen Presentation by Interferon-γ-Treated Endothelial Cells and Fibroblasts: Differential Ability to Function as Antigen-Presenting Cells Despite Comparable la Expression

G. S. Madonna and S. N. Vogel

J. Lacy, W. C. Summers, and Z. N. Cannellakis

E. Yefenof, V. M. Sanders, E. C. Snow, R. J. Noelle, K. G. Oliver, J. W. Uhr, and E. S. Vitetta

M. Belo, C. Martin, C. Corbel, and N. M. Le Douarin

J. T. Golay, E. A. Clark, and P. C. L. Beverley

W. L. Hoffman, P. D. Strucely, A. A. Jump, and J. D. Smiley

H.-M. Dosch, P. Lam, and D. Guerin

F. M. Uckun, D. A. Valleria, and S.-L. Wee

M. Alvarez-Mon, J. H. Kehrl, and A. S. Fauci

H. C. Clevers, J. M. T. Verstegen, T. Logtenberg, F. H. J. Gmelig Meyling, and R. E. Baillieux

M.-K. Ho, N. Rand, J. Murray, K. Kato, and H. Rabin

E. Cairns, J. St. Germain, and D. A. Bell

M. Kimura and E. Gleichmann

W. Yumura, S. Hattori, W. J. Hall, J. P. Portanova, H. N. Claman, and B. L. Kotzin

R. F. Todd III, P. A. Alvarez, D. A. Brott, and D. Y. Liu

In Vitro Immunization of Human Lymphocytes. I. Production of Human Monoclonal Antibodies against Bombesin and Tetanus Toxoid

The In Vitro Production of Anti-DNA Antibody by Cultured Peripheral Blood or Tonsillar Lymphoid Cells from Normal Donors and SLE Patients

The Lyb-3+5+ Subset of B Cells Is not Required for Lupus-like Autoantibody Formation Caused by Graft-vs-Host Reaction

Autoimmunization in Murine Graft-vs-Host Disease. I. Selective Production of Antibodies to Histones and DNA

Dietary Fat and Immune Function. I. Antibody Responses, Lymphocyte and Accessory Cell Function in [NZB × NZW]F1, Mouse

Dietary Fat and Immune Function. II. Effects on Immune Complex Nephritis in [NZB × NZW]F1, Mouse

Bacterial Lipopolysaccharide, Phorbol Myristate Acetate, and Muramyl Dipeptide Stimulate the Expression of a Human Monocyte Surface Antigen, Mo3e
