Chief, Section of Immunology, Allergy and Rheumatology, Department of Medicine

The Department of Medicine of the Baylor College of Medicine (BCM), Houston, Texas, seeks an exceptional clinician-scientist with a national and international reputation in basic, translational and/or clinical investigation to serve as chief of the section of Immunology, Allergy and Rheumatology.

Baylor College of Medicine, the only private medical school in the Greater Southwest, is recognized as a premier academic health science center and is known for excellence in education, research and patient care. For 2009, U.S. News & World Report ranked BCM 13th among all U.S. medical schools for National Institutes of Health funding, and No. 2 in the nation in federal funding for research and development in the biological sciences at universities and colleges by the National Science Foundation. BCM is located in the heart of the Texas Medical Center, a 1,000 acre complex of 46 independent institutions. BCM-affiliated hospitals and clinics include Ben Taub General Hospital, the Michael E. DeBakey VA Medical Center, Texas Children's Hospital, St. Luke's Episcopal Hospital, The Methodist Hospital, and Baylor Clinic. The Department of Medicine is the second largest clinical department in the College with more than 700 full-time and volunteer faculty in 18 sections and centers.

The successful candidate should be qualified for an endowed chair with evidence of leadership in biomedical research and clinical care with expertise in rheumatic and autoimmune disease (board certified in rheumatology) and/or allergic and immunologic disease (board certified in allergy and immunology). The incoming chief will be responsible for expanding the section of Immunology, Allergy and Rheumatology by recruiting several new BCM-supported faculty positions. The chief will also direct BCM's multidisciplinary Biology of Inflammation Center, which has substantial philanthropic support. Another priority will be maintaining the national profile of the College's ACGME training programs in rheumatology, allergy and immunology. Interested candidates should electronically submit a cover letter outlining relevant qualifications, a CV and the names of three references to William E. Mitch, MD, Chair of Immunology, Allergy and Rheumatology Section Chief Search Committee. Email: mitch@bcm.edu

Baylor College of Medicine is an Equal Opportunity/
Affirmative Action/Equal Access Employer.

www.baylorclinic.com/services/immunology

The University of Washington School of Medicine seeks a Professor and Chair of the Department of Immunology. Candidates should have a PhD degree in Immunology or a related biomedical discipline and/or a MD degree, an internationally recognized research program in Immunology, and well-demonstrated academic leadership skills. The Department of Immunology at the University of Washington has outstanding research and graduate training programs in Immunology, and it participates actively in teaching in the medical curriculum and in interdisciplinary training of MD and PhD students through multi-departmental graduate programs in Molecular & Cellular Biology and Molecular Medicine. UW faculty engage in teaching, research and service. Please submit applications (including a CV and names of reference) or nominations to William A. Catterall, PhD, Chair, Immunology Search Committee, Department of Pharmacology, University of Washington, Box 357280, Seattle, WA 98195-7280.

**THE UNIVERSITY OF WASHINGTON IS AN
AFFIRMATIVE ACTION/EQUAL OPPORTUNITY
EMPLOYER.**
