Northwestern University Feinberg School of Medicine invites applications and nominations for the inaugural Director, Center for Immunobiology. The new Director will report directly to the Dean of the medical school. In this role, the Director is responsible for oversight of the research and administrative affairs of the Center at the Feinberg School of Medicine.

The Center for Immunobiology is an interdepartmental center with faculty who are engaged in a broad spectrum of cutting-edge basic, translational, and clinical immunology-related research. Principal investigators appointed through the Feinberg School of Medicine are supported by $471 million of annual research funding. The medical school is embedded among three U.S. News & World Report Honor Roll hospitals; Northwestern Memorial Hospital is ranked 13th, Lurie Children’s Hospital 7th, and the Rehabilitation Institute of Chicago 1st.

Successful candidates will possess a MD, PhD, or MD/PhD degree and be eligible for a faculty appointment as a full-time Professor with scholarly accomplishments and interest in recruiting and developing a strong scientific team. Candidate should be recognized investigators in human immunology with complementary strengths in basic and translational investigation.

Email nominations and CVs of appropriate candidates to Ila Allen, recruitment coordinator, at: immunobiosearch@northwestern.edu

Apply online at: https://facultyrecruiting.northwestern.edu/apply/MTQz

Northwestern University is an Equal Opportunity, Affirmative Action Employer of all protected classes, including veterans and individuals with disabilities. Women, racial and ethnic minorities, individuals with disabilities, and veterans are encouraged to apply. Hiring is contingent upon eligibility to work in the United States.

The Division of Immunology at the University of Iowa Carver College of Medicine is seeking to hire a tenure-track faculty member at the rank of Assistant Professor, Associate Professor, or full Professor level. We are seeking a highly motivated individual with a demonstrated potential for conducting innovative research. The successful candidate must have a PhD degree with additional post-doctoral training in the area of immunology or molecular biology. The successful candidate must have substantial peer-reviewed publications in the field of immunology that demonstrate originality and productivity and will be expected to establish a vigorous, independently funded research program. The successful candidate will also be expected to participate in teaching of graduate students and to be an active member of the immunology/inflammation research community on the University of Iowa campus. Prior experience supervising and mentoring graduate students is desirable. Areas of particular interest include, but are not limited to, Lymphocyte and other immune cell signaling pathways including tumor necrosis factor (TNF).

The successful candidate is required to have excellent communication and leadership skills, excellent organizational skills and demonstrated job-related experience with a commitment to diversity in the academic setting.

Academic appointment will be in the Department of Internal Medicine. The position provides a competitive start-up package and outstanding opportunities for collaboration with other scientists and clinical investigators throughout the University of Iowa Carver College of Medicine.

To apply for this position, search the Jobs@UIOWA site: http://jobs.uiowa.edu/content/faculty/ and search for requisition # 73077.

For additional information please contact:

Aaron Knaack  
Division Coordinator, Division of Immunology
