**The Career Advisory Board**

**A RESOURCE FOR SENIOR POSTDOCS AND EARLY-CAREER FACULTY**

Have you just started your first lab? Trying to juggle research, teaching, and service? Are you facing new and puzzling issues that an established scientist can answer?

The Career Advisory Board (CAB) is a referral service that matches senior postdocs (start of fourth year and beyond) and early-career PIs who submit requests for guidance on specific career issues with more senior scientists with experience and insights in those areas. The program is not meant to replace the mentoring programs at a scientist's home institution, but rather to serve as a resource for senior postdocs and early-career PIs to obtain advice on a specific question from established investigators outside of their home institutions—often through a single phone call.

**Selected Topics**
- Balancing family and work
- Timing for first grant submission
- Recruiting
- Handling personnel issues
- Managing a lab
- Finding a mentor
- Building networks
- Preparing for leadership
- Balancing service obligations
- Teaching
- Serving on NIH study sections

**ELIGIBILITY:** The CAB is open to all senior postdocs (start of fourth year and beyond) and early-faculty AAI members.

**APPLY HERE:** [http://aai.org/CAB](http://aai.org/CAB)
You have the power.

Your membership in the American Association of Immunologists helps advance the field—and your career.

Being a part of AAI enables you to take an active role in helping to shape the future of immunology and attain your professional goals. You’ll stand with members representing immunological research concerns on Capitol Hill. Plus, you gain access to:

• The best and brightest minds today.
• The world’s largest annual all-immunology meeting.
• The Journal of Immunology, the pre-eminent peer-reviewed journal in the field.
• Many occasions and opportunities to present your research.
• Awards/fellowships/grants to support talented scientists in every career stage.

To renew your AAI membership and its contributions to your professional life, call 301.634.7195 or visit www.aai.org today.
2019 INTRODUCTORY COURSE IN IMMUNOLOGY

July 9–14, 2019  I  UCLA Luskin Conference Center  I  Los Angeles, California

Directors: Juan Carlos Zúñiga-Pflücker, Ph.D.
University of Toronto and Sunnybrook Research Institute

Helen S. Goodridge, Ph.D.
Cedars-Sinai Medical Center

Don't miss the most comprehensive introduction to immunology available!
This intensive two-part course, taught by world-renowned immunologists, provides a comprehensive overview of the basics of immunology. This course is for students new to the discipline or those seeking more information to complement general biology or science training. Part I (July 9–11) is a detailed introduction to the basic principles of immunology and is suitable for students with a general biology background. Part II (July 12–14) is a clinically oriented lecture series focusing on specialty areas.

Parts I and II may be taken independently at the discretion of the student.

Faculty

Juan Carlos Zúñiga-Pflücker, University of Toronto and Sunnybrook Research Institute
Introduction to the Immune System

Lewis L. Lanier, University of California, San Francisco
Innate Immunity: Introduction to the Cells

Deborah A. Fraser, California State University Long Beach
Complement

Helen S. Goodridge, Cedars-Sinai Medical Center
Innate Immunity: Introduction to Pattern Recognition and Intracellular Signaling

Wendy L. Havran, The Scripps Research Institute
Introduction to Adaptive Immunity

David Nemazee, The Scripps Research Institute
B Cell Development and Maturation

Nilabh Shastri, Johns Hopkins University
Antigen Processing and Presentation

Juan Carlos Zúñiga-Pflücker, University of Toronto and Sunnybrook Research Institute
MHC Restriction and Thymic Selection

Christine Mousson, Genentech, Inc.
Dendritic Cells: The Bridge Between Innate and Adaptive Immunity

Michael Croft, La Jolla Institute for Immunology
Effector T Cell Differentiation and Response

Shane Crotty, La Jolla Institute for Immunology
B Cell Activation and Humoral Immunity

Ronald N. Germain, NIH
Orchestrating the Immune Response

Stephen M. Hedrick, University of California, San Diego
Host-Pathogen Co-evolution in Human Beings: the Red Queen and the Grim Reaper

Ninan Abraham, University of British Columbia
Cytokines

Megan K. Levings, University of British Columbia
T and B Cell Tolerance

Matthias G. von Herrath, La Jolla Institute for Immunology
Autoimmunity

Jonathan S. Maltzman, Stanford University
Solid Organ Transplantation

Peter B. Ernst, University of California, San Diego
Mucosal Immunology

Steven F. Ziegler, Benaroya Research Institute
Type 2 Immunity

Martin Prlic, Fred Hutchinson Cancer Research Center
Immunologic Memory

Robert L. Modlin, University of California, Los Angeles
David Geffen School of Medicine
Immunity to Bacterial Pathogens

Ilhem Messaoudi, University of California, Irvine
Immunity to Viruses

Stephen L. Shiao, Cedars-Sinai Medical Center
Tumor Immunology

Donald B. Kohn, University of California, Los Angeles
Genetic Approaches to Immune-Mediated Diseases

Stephen De Rosa, Fred Hutchinson Cancer Research Center
Vaccination

Andrew C. Chan, Genentech, Inc.
Bench to Bedside to Bench: Current Issues in Immunology

For complete course details and registration, visit www.aai.org/Education/Courses
For assistance, contact (301) 634-7178 or meetings@aai.org. Overseas applicants are advised to apply early for visas; for details, see Visa Information at www.aai.org/Education/Courses/Introductory.
2019 ADVANCED COURSE IN IMMUNOLOGY
July 28–August 2, 2019 | Seaport World Trade Center | Boston, Massachusetts

Director: Wayne M. Yokoyama, M.D.
Washington University School of Medicine in St. Louis

Don’t miss the premier course in immunology for research scientists!
This intensive course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. Leading experts will present recent advances in the biology of the immune system and address its role in health and disease. This is not an introductory course; attendees will need to have a firm understanding of the principles of immunology.

Faculty
Ulrich H. von Andrian, Harvard Medical School
Anatomy of the Immune Response

Jonathan C. Kagan, Children’s Hospital Boston
Harvard Medical School
Innate Immunity: Pattern Recognition and Anti-microbial Mechanisms

Kate A. Fitzgerald, University of Massachusetts Medical School
Innate Immunity: Gene Regulation

Wayne M. Yokoyama, Washington University School of Medicine
NK Cells—Their Receptors and Function in Health and Disease

Albert S. Bendelac, University of Chicago
Innate Immunity: Cellular Mechanisms

Bethany B. Moore, University of Michigan
Molecular and Cellular Mediators of Inflammation

Karolina Palucka, The Jackson Laboratory
Dendritic Cells

Barry P. Sleckman, Weill Cornell Medical College
The Generation and Modification of Lymphocyte Antigen Receptor Genes

Lisa A. Borghesi, University of Pittsburgh School of Medicine
B Cell Development

Avery August, Cornell University
T Cell Development

Kai W. Wucherpfennig, Dana-Farber Cancer Institute, Harvard Medical School
MHC-restricted Antigen Presentation to T Cells

Morgan Huse, Memorial Sloan Kettering Cancer Center
Signaling from Antigen Receptors

Brian A. Cobb, Case Western Reserve University School of Medicine
Glycoimmunology

Richard S. Blumberg, Brigham and Women’s Hospital, Harvard Medical School
Mucosal Immunity

Cathryn Nagler, University of Chicago
Effect of the Microbiome on Immunity

Jennifer A. Philips, Washington University School of Medicine
Immune Response to Pathogens

Eric Meffre, Yale University
B Cell Tolerance and Autoimmunity

James J. Moon, Harvard Medical School, Massachusetts General Hospital
T Cell Tolerance and Autoimmunity

Jonathan Kipnis, University of Virginia School of Medicine
Neuroimmunology

Maxim N. Artyomov, Washington University School of Medicine
Single Cell RNA-seq Analysis

Dario Vignali, University of Pittsburgh School of Medicine
Tumor Immunology

Galit Alter, Ragon Institute of MGH, MIT, and Harvard
Vaccines

Lisa M. Olson, AbbVie
Immunotherapeutics

Also included will be lectures on:
T Cell Memory
B Cell Memory

For complete course details and registration, visit www.aai.org/Education/Courses
For assistance, contact (301) 634-7178 or meetings@aai.org. Overseas applicants are advised to apply early for visas; for details, see Visa Information at www.aai.org/Education/Courses/Advanced.
