CAREER AWARD RECIPIENTS FOR 2019
The American Association of Immunologists proudly announces the 2019 recipients of AAI awards for outstanding research and career achievements.

AAI Lifetime Achievement Award
Pamela J. Fink, Ph.D.
University of Washington
In recognition of a remarkable career of scientific achievement and contributions to AAI and the field of immunology

AAI Distinguished Service Award
Beth A. Garvy, Ph.D.
University of Kentucky Chandler Medical Center
For outstanding service to AAI and the immunology community as member and Chair of the AAI Committee on Public Affairs, 2011–2018

AAI Distinguished Service Award
Clinton B. Mathias, Ph.D.
Western New England University
For outstanding service to AAI and the immunology community as Director of the AAI High School Teachers Program, 2012–2018

AAI-Thermo Fisher Meritorious Career Award
Kristin A. Hogquist, Ph.D.
University of Minnesota Center for Immunology
For exceptional research contributions to the field of immunology

AAI-Steinman Award for Human Immunology Research
Steven A. Rosenberg, M.D., Ph.D.
National Cancer Institute, National Institutes of Health
For significant, sustained achievement in immunology research pertinent to human disease pathogenesis, prevention, or therapy

AAI-BioLegend Herzenberg Award
Frederick W. Alt, Ph.D.
HHMI, Boston Children’s Hospital
For outstanding contributions to the field of immunology in the area of B cell biology

AAI Excellence in Mentoring Award
Harvey Cantor, M.D.
Dana-Farber Cancer Institute, Harvard Medical School
In recognition of exemplary career contributions to a future generation of scientists

The 2019 AAI Award winners will be recognized at IMMUNOLOGY 2019™, May 9–13, San Diego, CA.

2019 Introductory Course in Immunology
July 9–14, 2019
UCLA Luskin Conference Center, Los Angeles, California

This comprehensive two-part course, taught by leading experts, provides an in-depth overview of the basics of immunology. This course is for students new to the discipline or those seeking more information to complement general biology or science training. **Part I (July 9–11)** is a detailed introduction to the basic principles of immunology and is suitable for students with a general biology background. **Part II (July 12–14)** is a clinically oriented lecture series focusing on specialty areas. Parts I and II may be taken independently at the discretion of the student.

2019 Advanced Course in Immunology
July 28–August 2, 2019
Seaport World Trade Center, Boston, Massachusetts

Established in 1966, this intensive course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. World-renowned immunologists will present recent advances in the biology of the immune system and address its role in health and disease. This is not an introductory course; attendees will need to have a firm understanding of the basic principles of immunology and laboratory techniques.

The Career Advisory Board

A RESOURCE FOR SENIOR POSTDOCS AND EARLY-CAREER FACULTY

Have you just started your first lab? Trying to juggle research, teaching, and service?

Are you facing new and puzzling issues that an established scientist can answer?

The Career Advisory Board (CAB) is a referral service that matches senior postdocs (start of fourth year and beyond) and early-career PIs who submit requests for guidance on specific career issues with more senior scientists with experience and insights in those areas. The program is not meant to replace the mentoring programs at a scientist's home institution, but rather to serve as a resource for senior postdocs and early-career PIs to obtain advice on a specific question from established investigators outside of their home institutions—often through a single phone call.

ELIGIBILITY: The CAB is open to all senior postdocs (start of fourth year and beyond) and early-faculty AAI members.

APPLY HERE: http://aai.org/CAB

Selected Topics

Balancing family and work
Timing for first grant submission
Recruiting
Handling personnel issues
Managing a lab
Finding a mentor
Building networks
Preparing for leadership
Balancing service obligations
Teaching
Serving on NIH study sections
