AAI Courses in Immunology

2020 Introductory Course in Immunology
July 7–12, 2020
UCLA Luskin Conference Center, Los Angeles, California

This comprehensive two-part course, taught by leading experts, provides an in-depth overview of the basics of immunology. This course is for students new to the discipline or those seeking more information to complement general biology or science training. **Part I (July 7–9)** is a detailed introduction to the basic principles of immunology and is suitable for students with a general biology background. **Part II (July 10–12)** is a clinically oriented lecture series focusing on specialty areas. Parts I and II may be taken independently at the discretion of the student.

2020 Advanced Course in Immunology
July 26–31, 2020
The Westin Copley Place, Boston, Massachusetts

Established in 1966, this intensive course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. World-renowned immunologists will present recent advances in the biology of the immune system and address its role in health and disease. This is not an introductory course; attendees will need to have a firm understanding of the basic principles of immunology and laboratory techniques.

The Journal of Immunology
Topical Reviews Collections

The Journal of Immunology Topical Reviews collection provides an authoritative, up-to-date overview of critical areas in immunology. These reviews focus on rapidly developing topics and provide an indication of future directions.

2019: Immunity to Influenza: Closing in on a Moving Target
This collection of Brief Reviews covers the broad spectrum of factors contributing to disease severity, protection, and vaccine design for this elusive pathogen.
www.jimmunol.org/influenza

2018: The Cancer Immunotherapy Revolution: Mechanistic Insights
This series of Brief Reviews highlights the interface between basic tumor immunology and the development of cancer immunotherapeutics.
www.jimmunol.org/cancerimmunotherapy

2017: The Macro Influence of the Microbiome
This series of Brief Reviews illustrates the wide-ranging dialogue between the gut microbiome and immune function, and emphasizes the clinical consequences of disruption. The series highlights the influence of the gut microbiome on neonatal immunity, inflammatory diseases, metabolites, food allergy, Type I diabetes, autoimmunity in the CNS, and HIV infection.

AIA Programs to Benefit Your Lab’s Current or Future Research

AAI Careers in Immunology Fellowship

**KEY DATES**

APPLICATIONS OPEN
JANUARY 15

APPLICATIONS CLOSE
MARCH 15

These fellowships provide AAI member PIs with one year of salary support for a graduate student or postdoctoral fellow in their labs. Member PIs in good standing with less than $250,000 (excluding PI’s salary) in annual direct costs are eligible to apply.

Selection is based on the potential of the trainee, merit of the project, quality of the training environment, and financial need.

Direct inquiries to fellowships@aai.org.

AAI Travel for Techniques Award Program

**AWARDS CYCLE**

APPLICATIONS OPEN

WINTER
DECEMBER 15

SPRING
APRIL 15

FALL
AUGUST 15

APPLICATIONS CLOSE

FEBRUARY 15

JUNE 15

OCTOBER 15

The Travel for Techniques Award is given to member PIs, reimbursing up to $1,500 in expenses for travel to learn a new technique. Member PIs in good standing with less than $250,000 (excluding PI’s salary) in annual direct costs are eligible to apply.

Direct inquiries to awards@aai.org.

*If the application deadline falls on a weekend day or a federal holiday, applications will be due on the next regular business day.*

The American Association of Immunologists provides robust support for scientists through an array of fellowships, career awards, and travel grants. For complete details, visit www.aai.org/awards.
The American Association of Immunologists

Future AAI Annual Meetings
Mark Your Calendar for the Premier Annual Immunology Event!

2021
IMMUNOLOGY 2021™
May 12–16
Philadelphia, Pennsylvania

2022
IMMUNOLOGY 2022™
May 6–10
Portland, Oregon

2023
IMMUNOLOGY 2023™
May 11–15
Washington, DC
You have the power.

Your membership in the American Association of Immunologists helps advance the field—and your career.

Being a part of AAI enables you to take an active role in helping to shape the future of immunology and attain your professional goals. You’ll stand with members representing immunological research concerns on Capitol Hill. Plus, you gain access to:

- The best and brightest minds today.
- The world's largest annual all-immunology meeting.
- *The Journal of Immunology*, the pre-eminent peer-reviewed journal in the field.
- Many occasions and opportunities to present your research.
- Awards/fellowships/grants to support talented scientists in every career stage.

To renew your AAI membership and its contributions to your professional life, call 301.634.7195 or visit www.aai.org today.
