2021 Introductory Course in Immunology
July 12–17, 2021
Course Director: Helen S. Goodridge, Ph.D., Cedars-Sinai Medical Center

This comprehensive course, taught online by leading experts, provides an in-depth overview of the basics of immunology. This course is for students new to the discipline or those seeking more information to complement general biology or science training. After the presentation of basic principles, clinically oriented lectures will incorporate these concepts.

2021 Advanced Course in Immunology
July 25–30, 2021
Course Director: Wayne M. Yokoyama, M.D., DFAAI, Washington University School of Medicine

This intensive online course is directed toward advanced trainees and scientists who wish to expand or update their understanding of the field. World-renowned immunologists will present recent advances in the biology of the immune system and address its role in health and disease. This is not an introductory course; attendees will need to have a firm understanding of the basic principles of immunology and laboratory techniques.
