AAI Establishes COVID-19 Resources and Information Web Page

In response to the global coronavirus pandemic, AAI has established a COVID-19 Resources and Information page on its website to assist the immunology community in accessing essential pandemic resources, including articles and other information of interest to scientists and the public.

Resources and information that can be found include:
• Links to WHO and CDC websites
• AAI response to the crisis
• AAI members making news
• NIH alerts, clinical trials, and initiatives
• selected references and studies
• a global COVID-19 daily tracker
• and more

Visit the COVID-19 Resources and Information web page at www.aai.org/COVID-19-Resources.

AAI members are invited to submit stories of their research and other efforts related to COVID-19 for inclusion on this page.

Please send your stories to bcoulter@aai.org. Inclusion will be at the discretion of AAI.
IMPORTANT DATES

REGISTRATION
Registration .................................................. Now Open
Early Registration Discount Ends ......................... March 29, 2022

HOUSING
Discounted Housing Reservations ....................... Now Open
Discounted Hotel Rates End ............................. April 3–14, 2022 (varies by hotel)

Looking for creative ways to bring the excitement of discovery to your classroom? Participate in the American Association of Immunologists (AAI) High School Teachers Summer Research Program. You’ll enjoy hands-on experience in cutting-edge research, using the latest tools and techniques. And you’ll take home a number of new lab exercises for use in your classes.

This national program supports high school science teachers’ participation in a 4–6 week summer research experience in the laboratories of AAI members. If you are selected,

- AAI will locate an AAI member in your area to serve as your mentor for the summer.
- You will receive a stipend for working in the laboratory of your AAI mentor.
- An educational consultant will assist you with the development of an innovative curriculum to be shared nationally.
- You will be supported to attend a national professional meeting to present your experiences, and
- Prior to starting in the lab, you will be supported in attending the 3-day AAI Introductory Course in Immunology, Part I, held in July in Los Angeles, California. There, you’ll learn the basic principles of the discipline. (www.aai.org/IntroCourse).

Apply today for this exciting professional development opportunity! Applications are due March 15.

Complete details and application forms can be found at: www.aai.org/HSTProgram

Contact Mary T. Litzinger, Ph.D., with any questions: mlitzinger@aai.org or 301.634.7820.

AAI is a professional association dedicated to advancing the discipline of immunology and representing the interests of scientists engaged in research in the field. AAI sponsors the High School Teachers Summer Research Program in Immunology in an effort to cultivate the next generation of talented investigators and enhance public understanding of the critical nature of basic research to human health.

Curricula from past program participants are available to other teachers through an archive maintained on the AAI website. Find ideas for incorporating the excitement of immunology into your classroom!

Recent topics include:

- A Bioinformatics Approach to Systemic Lupus Erythematosus and Autoimmunity
- Exploring the Link Between Regulatory T Cells and Tumor Growth: A Lesson in the Immune System and Cancer
- How Can Students Combine Computational Biology Tools with a Laboratory Model to Analyze Changes in the Human Gut Microbiome?
- Vaccines and Herd Immunity

Take advantage of this free educational resource!
