Unlock your experimental potential with power and agility

Busy labs like yours require flexibility and greater resolution to stay a step ahead and adapt to ever-evolving flow cytometry research needs. That’s why we’ve specially designed the BD FACSsymphony™ A5 SE Cell Analyzer to give you the power of spectral technology with the added flexibility to choose between spectral unmixing or compensation workflows.

With the BD FACSsymphony™ A5 SE Cell Analyzer, you can support varying user preferences and assay requirements all from one platform.

You don’t have to compromise power for agility—now you can have both.

Expand your experimental power.
