FASEB’s New Diversity Programs

FASEB is further advancing its diversity and inclusivity efforts by launching the FASEB Diversity, Equity, Accessibility, and Inclusion (DEAI) Program, the first-of-its-kind to provide a suite of diversity and inclusivity programs for working scientists throughout the life sciences.

To enhance diversity, equity, accessibility, and inclusion in the life sciences, FASEB’s new programs for working scientists throughout the life sciences include:

**FASEB CARES**

Career Advancement and Research Excellence Support provides financial support to alleviate financial burdens associated with caregiving, enabling FASEB society members to continue their scientific training, professional development, and career progression.

**FASEB FRIENDS**

Fostering Recruitment, Innovation, Engagement, and Diversity in Sciences is an ongoing outreach initiative that strives to increase diversity among FASEB and its member societies by promoting career advancement of the biological and biomedical research workforce from historically excluded communities.

**FASEB LEAD**

Leadership Engagement and Appreciation of Differences is a reverse mentoring program that pairs senior-level professionals with junior-level mentors to gain different perspectives of individual, group, and cultural views within the workplace and the scientific research communities.
