

INDEX

- ACS, III. Effect of, on the healing of experimentally produced fractures in rabbits. Studies on antireticular cytotoxic serum, 163
- Action of Urea and some of its derivatives on bacteria, The. I. Bacteriostatic and bactericidal effects of urea and urethane, 117
- of urea and some of its derivatives on bacteria, The. II. Antibacterial activity of combinations of urea and urethane with sulfonamides and the effect of the carbamates on para-amino-benzoic acid and on the solubility of sulfonamides, The, 131
- of urea and some of its derivatives on bacteria, The. III. Effect of combining urea or urethane with penicillin on mixed cultures of gram-positive and gram-negative bacteria, The, 145
- Alkali-treated bovine serum, The antigenicity of, protein, 245
- Allergy, Intradermal spread of vital dye in anaphylaxis and bacterial, 107
- Alterations in pathogenesis of experimental lymphocytic choriomeningitis caused by prepassage of the virus through heterologous host, 293
- Anaphylaxis, Intradermal spread of vital dye in, and bacterial allergy, 107
- Antigen-antibody, Studies on the reversibility of the, reaction. I. The disaggregation of agglutinated pneumococci exposed to homologous polysaccharide, 315
- Antigenicity of alkali-treated Bovine serum protein, The, 245
- Antipneumococcal serum, Studies of. VI. Changes in complement-fixing activity of rabbit sera during periods of immunization, rest, and reimmunization, 261
- serum, Studies of. VII. Complement-fixing activity of fractionated rabbit serum, 267
- Antireticular cytotoxic serum, Studies on. I. Introduction and review of the literature, 151
- cytotoxic serum, Studies on. II. Preparation and titration of the serum and study of its serological properties, 155
- cytotoxic serum, Studies on. III. Effect of ACS on the healing of experimentally produced fractures in rabbits, 163
- Antitoxin, Circulating, in the onset of diphtheria in 425 patients, 325
- Applicability of skin-tests for sulfonamide hypersensitivity in children, The, 65
- Arnow, L. Earle (joint author) with Louis A. Kazal and Ralph J. DeFalco. Antigenicity of alkali-treated bovine serum protein, The, 245
- Attenuation of virulence with retention of antigenicity of mumps virus after passage in the embryonated egg, 283
- Bactericidal, I. Bacteriostatic and, effects of urea and urethane. The action of urea and some of its derivatives on bacteria, 117
- Bacteriostatic and bactericidal effects of urea and urethane, I. The Action of Urea and some of its derivatives on bacteria, 117
- Bayliss, Milward (joint author) with Benjamin S. Schwartz, J. H. Milstone and Elbert Decoursey. Influenza index on periodic determination of average antibody titers of population samples, An, 225
- Berenberg, William (joint author) with John F. Enders, Jeanette H. Levens, Joseph Stokes, Jr., and Elizabeth P. Maris. Attenuation of virulence with retention of antigenicity of mumps virus after passage in the embryonated egg, 283
- Berry, George Packer (joint author) with Howard B. Slavin, and Harry W. Hale. Passive protection of the central nervous system of mice against viruses that pursue the pathway of the olfactory nerves after intranasal instillation, 179
- Beta hemolytic streptococci, Missed cases and contact carriers among nasal carriers of, 189
- (joint author) with Gordon Meiklejohn, and John C. Wagner. Studies on the Chemotherapy of viruses in the psittacosis-lymphogranuloma group. I. Effect of penicillin and sulfadiazine on ten strains in chick embryos, 1

- (joint author) with Robert W. Wiseman, Gordon Meiklejohn, David B. Lackman and John C. Wagner. Studies on the chemotherapy of viruses in the psittacosis-lymphogranuloma group. II. Effect of penicillin and sulfadiazine on seven strains in mice, 9
- Birkhaug, Konrad and Johs, Boe. Intradermal, Spread of vital dye in anaphylaxis and bacterial allergy, 107
- Boe, Johs. (joint author) with Konrad Birkhaug. Intradermal spread of vital dye in anaphylaxis and bacterial allergy, 107
- Bovine serum protein, The antigenicity of Alkali-treated, 245
- Branham, Sara E. and Karl Habel. Preparation and evaluation of an irradiated toxoid from the toxin of shigella dysenteriae, 305
- Brown-Pearce tumor, A heterologous principle in human cancerous liver: Its effect upon the, 17
- Buck, M. (joint author) with R. J. Schnitzer and Lillian C. Lafferty. Role of antibodies in experimental drug resistance of trypanosoma equiperdum, The, 47
- Buechler, Edith (joint author) with K. Guggenheim. Nutrition and resistance to infection. Bactericidal properties and phagocytic activity of peritoneal fluid of rats in various states of nutritional deficiency, 349
- Burton, Irving (joint author) with Herbert Wm. Fink, and Warren E. Wheeler. Applicability of skin tests for sulfonamide hypersensitivity in children, The, 65
- Cancerous liver, A heterologous principle in human: its effect upon the Brown-Pearce tumor, 17
- Carbamates, II. The antibacterial activity of combinations of urea and urethane with sulfonamides and the effect of the, on para-aminobenzoic acid and on the solubility of sulfonamides. The action of urea and some of its derivatives on bacteria, 131
- Cardiolipin-lecithin-cholesterol antigen, Standardization of the, in the complement-fixation test with cerebrospinal fluid, 253
- Carriers, Missed cases and contact, among nasal carriers of beta hemolytic streptococci, 189
- Capillary permeability, VII. Quantitative determination of the effect of the substances modifying, with the aid of indirect test. Quantitative studies on the neutralization of pathogenic agents in tissues by circulating antibodies, 197
- Cerebrospinal fluid, Standardization of the cardiolipin-lecithin-cholesterol antigen in the complement-fixation test with, 253
- Chemotherapy of viruses, Studies on the, in the psittacosis-lymphogranuloma group. II. Effect of penicillin and sulfadiazine on seven strains in mice, 9
- Studies on the, of viruses in the psittacosis-lymphogranuloma group. I. Effect of penicillin and sulfadiazine on ten strains in chick embryos, 1
- Chick-embryo vaccines, Studies on, against Japanese B encephalitis, 357
- Choriomeningitis, Alterations in pathogenesis of experimental lymphocytic, caused by prepassage of the virus through heterologous host, 293
- Circulating antitoxin in the onset of diphtheria in 425 patients, 325
- Cohen, Arthur L. (joint author) with Reuben Straus, Morris Horwitz, Daniel H. Levinthal and Mildred Runjavac. Studies on antireticular cytotoxic serum. III. Effect of ACS on the healing of experimentally produced fractures in rabbits, 163
- Coliform bacterium with the complete antigens of salmonella newington, A, 275
- Complement-fixation reactions, V. Studies in human malaria, 89
- fixation test, Standardization of the cardiolipin-lecithin-cholesterol antigen in the with cerebrospinal fluid, 253
- fixing activity, VI. Changes in, of rabbit sera during periods of immunization, rest, and reimmunization. Studies of antipneumococcal serum, 261
- fixing activity of fractionated rabbit serum, VII. Studies of antipneumococcal serum, 267
- Cox, Herald R. (joint author) with Hilary Koprowski. Studies on chick embryo vaccines against Japanese B encephalitis, 357

- Cytotoxic serum, Studies on antireticular.
 1. Introduction and review of the literature, 151
 serum, Studies on antireticular. II. Preparation and titration of the serum and study of its serological properties, 155
 serum, Studies on antireticular. III. Effect of ACS on the healing of experimentally produced fractures in rabbits, 163
- Decoursey, Elbert (joint author) with Benjamin S. Schwartz, J. H. Milstone and Milward Bayliss. Influenza index on periodic determination of average antibody titers of population samples, *An*, 225
