

## INDEX

- Adrenal antibodies, rat, *in vivo* localization of, 134
- Agar diffusion technic, use of, to reveal unidentified antibody in anti-egg albumin sera, 205
- plate precipitin test of Ouchterlony, experimental studies of, 232
- Albert, S., 278
- Alum-precipitated anthrax antigen, immunizing activity of, 387
- Anderson, Pearl, 16
- Anthrax, studies on immunity in, 387
- Antibiotic activity, mixed bacterial infections in relation to, 169
- Antibodies, labeled rat adrenal, 134
- , local fixation of in the skin of the guinea pig, effect of histamine on, 318
- , production of in chickens, to human and hog blood group substances, 67
- , rat organ, *in vivo* localization of, 125
- to the human blood groups in normal and immune sera, 29
- Antibody formation, inhibition of in mature rabbits by contact with the antigen at early age, 49
- — and effect of x-radiation on antibody levels in hypophysectomized rat, 88
- in anti-egg albumin sera revealed by the agar diffusion technic, 205
- production and complement, relative effect of various agents on, 375
- —, relation of onset of resistance of suckling mice to mumps virus, 249
- —, studies on, 95
- response of suckling mice to mumps virus, 244, 249
- Antigen analysis by the Oudin method, 322
- Antigenic composition of *Ammodytes viper* venom, 115
- relations of blood group antigens as suggested by tests with lectins, 226
- Antigenicity of tetanus toxoid prepared in presence and absence of veal infusion, 259
- Arteritis, effect of nitrogen mustard on experimental production of, 100
- Baer, Harold, 67
- Bacterial infections, mixed, in relation to antibiotic activity, 169
- Bale, William F., 125, 134
- Becker, Elmer L., 286
- Becker, Robert R., 159
- Bell, J. Frederick, 221
- Belman, Sidney, 296
- Benacerraf, B., 318
- Berman, Theodore, 259
- Bierly, James N., 256
- Biozzi, G., 318
- Blank, Harvey, 415
- Blood group antigens, antigenic relations of, as suggested by tests with lectins, 226
- groups, antibodies to in normal and immune sera, 29
- Boyd, William C., 226
- Branham, Sara E., 199
- Breese, Sydney S., 16
- Bringaze, Joan Kemp, 67
- Brown, Gordon C., 62
- Calcium and factor resembling C'1, role of in inactivation of human complement, 146
- Carsten, Mary E., 296
- Chang, R. Shih-Man, 8
- Chanock, Robert M., 337, 352
- Chicks, use of in studies of equine encephalitis, 106
- Chin, Paul H., 120
- Clostridium septicum*, micrococcus infection, relation to antibiotic activity, 169
- Cohen, Sheldon G., 100
- Comparison of normal antibodies and antigens in sheep, cattle and man, 407
- Complement and antibody production, relative effect of various agents on, 375
- , dual activity of, 163
- , factors influencing hemolytic action of, 375
- fixation reaction in virus systems, 309
- , function of, 163
- , human, inactivation by plasmin and antigen-antibody aggregates, 146
- Cortisone and adrenocorticotropic hormone, effect on hypersensitivity to 2,4-dinitrochlorobenzene in guinea pigs, 44
- Crocker, T. Timothy, 1
- Deming, Q. B., 81
- Dengue viruses, properties and antigenic relationships of hemagglutinins associated with, 363
- Development of resistance in mice immunized with soluble antigen from *B. tularensis*, 221
- Dickensheets, James, 256
- Dougherty, Thomas F., 95
- Dzury, Daniel S., 100
- Eberhard, Theodore P., 256
- Effect of biologic and chemical agents on production of arteritis by passive sensitization, 100
- — order of addition of antigen and antibody on the precipitin reaction, 286

- Egg passage, effect of, on reaction by influenza A virus and sheep erythrocytes, 190
- Eisen, Herman N., 296
- Electron microscopic counting of meningo-pneumonitis virus, 1
- Electrophoretic mobility in paper of isoagglutinins, 81
- Elementary bodies, meningo-pneumonitis virus, determined by electron microscopy, 1
- Encephalitis, Eastern and Western equine, use of chicks in studies on, 106
- Enders, John F., 62
- Enterobacteriaceae, studies on Vi antigen from, 16, 23
- Erythrocyte-sensitizing substances from Rickettsiae of the Rocky Mountain spotted fever group, 8
- Freeman, Monroe, 16
- Fuller, Henry S., 138
- Gamma globulin, effect of on subclinical infection in familial associates of poliomyelitis cases, 54
- —, I<sup>125</sup> labeled, half-life in patients with hepatic cirrhosis, 256
- Green, Thomas W., 387
- Halbert, Seymour P., 169
- Half-life of I<sup>125</sup> labeled normal human gamma globulin in patients with hepatic cirrhosis, 256
- Halpern, B. N., 318
- Hanan, Robert, 54
- Havens, Paul W., Jr., 256
- Hayes, Sheldon P., 95
- Henle, Werner, 415
- Histamine, effect of on local fixation of antibodies in the skin of the guinea pig, 318
- Hofman, Bartheld, 273
- Hottle, George A., 199
- Hypersensitivity to 2,4-dinitrochlorobenzene in guinea pigs, effect of cortisone and adrenocorticotrophic hormone on, 44
- — low molecular weight substances, studies on, 296
- Immune hemolysis, kinetic studies on, 426, 435, 443
- response of suckling mice to mumps virus vaccine, 244
- Immunity in anthrax, studies, on, 387
- , tissue cultures in the study of, 62
- Immunochemical analysis of unidentified antibody in anti-egg albumin sera, 205
- Immunochemistry of blood group O, 67
- Immunogenetic studies on J substance in cattle, 397
- Immunological properties of Vi antigens derived from V form enterobacteriaceae, 23
- Inactivation of human complement by plasmin and antigen-antibody aggregates, 146
- Incorporation of radioactive phosphorus into influenza virus, 415
- Influenza virus, incorporation of radioactive phosphorus into, 415
- — erythrocyte interaction, 180, 190
- Irwin, M. R., 397
- Isoagglutinins, electrophoretic mobility in paper, 81
- J substance of cattle, 397, 407
- Jeter, W. S., 44
- Johnson, Ralph M., 278
- Jungeblut, Claus W., 264
- Kabat, Elvin A., 205
- Kanode, Ralph G., Jr., 387
- Kelly, Dorothy R., 40
- Kinetic studies on immune hemolysis, 426, 435, 443
- Kissling, R. E., 106
- Knox, Alice W., 264
- Landy, Maurice, 16, 23
- Larson, Carl L., 221
- Lepow, Irwin H., 146
- Levine, Lawrence, 426, 435, 443
- Liu, Oscar C., 415
- Lymphocytes, participation in antibody production, 95
- Makinodan, Takashi, 159
- Marucci, Alvin A., 443
- Mayer, Manfred M., 426, 435, 443
- McKercher, P. D., 309
- McNamee, Mary, 67
- Meningo-pneumonitis virus, number of elementary bodies per 50% lethal dose, 1
- Menon, P. Govinda, 383
- Merideth, Ann M., 383
- Mice, susceptibility to reinfection with *Trichomonas vaginalis*, 40
- Monolayer tissue cultures, propagation of poliomyelitis viruses in, 392
- Muić, N., 115
- Mumps virus, antibody response of suckling mice to, 244, 249
- Murray, Edward S., 8
- Nagareda, C. Susan, 88
- Nature of "complete" Rh antisera as revealed by antiglobulin augmentation, 212
- Neff, Jane C., 286
- Nitrogen mustard, effect on experimental production of arteritis, 100

- Ouchterlony agar-plate precipitin test, experimental studies of, 232
- Oudin method for quantitative antigen analysis, 322
- Overman, John R., 244, 249
- Owen, Cora R., 221
- Owen, Ray D., 29
- Oyama, Jiro, 54
- Parker, Robert T., 383
- Payne, Rose, 81
- Physico-chemical characterization of Vi antigens isolated from V form enterobacteriaceae, 16
- Piantanida, M., 115
- Pillemer, Louis, 146
- Pinkus, Hermann, 278
- Plasmin, inactivation of human complement by, 146
- Poliomyelitis, effect of gamma globulin on sub-clinical infections in familial associates of, 54
- virus propagation *in vitro*, effect of cell population, virus inoculum, temperature of incubation on, 331
- —, propagation of, in tissue cultures, 392
- —, receptor-destroying factor in saliva of humans infected with, 264, 273
- Polyglycyl bovine serum albumin, serological properties of, 159
- Precipitin reaction, effect of order of addition of reagents on, 286
- —, the 2,4-dinitrophenyl group as determinant in, 296
- Pringle, B. H., 232
- Propagation *in vitro* of poliomyelitis viruses, studies, 331
- Quantitative antigen analysis by the Oudin method, 322
- comparisons of responses of cotton rats and albino mice to epidemic typhus rickettsiae, 138
- serological determination of antibody formation in x-irradiated rabbits, 120
- Rabbits, inhibition of antibody formation in by contact with antigen at early age, 49
- Rabson, Alan S., 54
- Radioactive phosphorus, incorporation of, into influenza virus, 415
- Rapp, Herbert J., 435, 443
- Rat organ antibodies, localization of, in tissues, 125, 134
- Ratnoff, Oscar D., 146
- Reaction between influenza A virus and sheep erythrocytes, 190
- — Lee virus and cat erythrocytes, 180
- Receptor-destroying enzyme in human saliva and its possible relation to poliomyelitis infection, 273
- — factor in human saliva from healthy donors and poliomyelitis patients, 264
- Rendel, J., 407
- Rh antisera as revealed by antiglobulin augmentation, 212
- Rice, Christine E., 309, 375
- Rickettsiae, epidemic typhus, responses of cotton rats and albino mice to, 138
- , persistence of in patient recovered from Rocky Mountain spotted fever, 383
- of the Rocky Mountain spotted fever group, erythrocyte-sensitizing substances from, 8
- Riggs, Donald B., 199
- Rocky Mountain spotted fever group of rickettsiae, erythrocyte-sensitizing substances from, 8
- — —, persistence of *R. rickettsii* in, 383
- Rubinstein, Herbert M., 322
- Sabin, Albert B., 337, 352, 363
- Sagin, Jerome F., 16, 23
- Scherer, William F., 331
- Schieble, Jack H., 54
- Schnitzer, R. J., 40
- Schumacher, Alberta, 40
- Seebohm, Paul M., 44
- Sera, normal and immune, antibodies to the human blood groups in, 29
- Serological determination of antibody formation in x-irradiated rabbits, 120
- properties of polyglycyl bovine serum albumin, 159
- Shapleigh, Elizabeth, 226
- Shigella dysenteriae*, studies on, 199
- Sikes, R. K., 106
- Silverman, Myron S., 120
- Silverstein, Arthur M., 163
- Snyder, John C., 8
- Snyder, Merrill J., 383
- Soluble antigen from *B. tularensis*, resistance of mice immunized with, 221
- Sonn, Constance, 169
- Sørensen, A. Neimann, 407
- Spar, Irving L., 125, 134
- Spizizen, John, 415
- Stahmann, Mark A., 159
- Stone, Joseph L., 259
- Stone, W. H., 397, 407
- Sturgeon, Phillip, 212
- Sweet, Benjamin H., 363
- Swick, Lois, 169
- Tamm, Igor, 180, 190
- Tetanus toxoid, effect of veal in medium on antigenicity of, 259

- Tissue cultures in the study of immunity, 62  
— —, propagation of poliomyelitis viruses in, 392  
Toxoid, *Shigella*, factors involved in preparation of, 199  
Tremaine, Mary M., 44  
*Trichomonas vaginalis*, influence of site of immunizing infection on immunity of mice, 40  
Trichomoniasis, experimental studies in, 40  
Trypsin-dispersed monkey kidney cells, propagation of poliomyelitis viruses in cultures of, 392  
Typhus rickettsiae, responses of cotton rats and albino mice to, 138
- Vaughan, John H., 205  
Vesicular stomatitis in horses, cattle and swine, complement fixation reaction in, 309  
Vi antigen, studies on, 16, 23  
Viper venom, *Ammodytes*, antigenic composition of, 115
- Walsh, John W., 100  
Webster, Marion E., 16, 23  
West Nile virus, hemagglutinin of, properties and antigenic relationships, 352  
Western equine encephalitis virus, hemagglutinin of, recovery, properties and use for diagnosis, 337  
Wilson, M. W., 232  
Wolfe, Harold R., 159  
Woodward, Theodore E., 383  
Wright, George G., 387  
Wurz, Leona, 146
- X-irradiation, quantitative serological determination of antibody formation in rabbits, 120  
X-radiation, effect of, on antibody levels in hypophysectomized rat, 88  
Youngner, J. S., 392
