THE JOURNAL OF IMMUNOLOGY

Information for Subscribers

Published monthly, beginning January, 1929. (From 1916-1925, and in 1928 Volumes I-X, inclusive, and Vol. XV published bi-monthly.)

The subscription price is \$18.00 per year in U.S.A.; \$18.75 in Canada; \$19.50 elsewhere. Single copies, when available, are \$2.25 in U.S.A.; \$2.50 elsewhere. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association's Treasurer, Dr. Byron H. Waksman, Massachusetts General Hospital, Boston 14, Mass. All other subscriptions should be sent to the publishers.

Change of address: Publisher must be notified 60 days in advance. Journals undeliverable because of incorrect address will be destroyed. Duplicates can be obtained (if available) from the publisher at the regular price of single issues.

New subscriptions and renewals are entered to begin with the first volume of the year when subscription is received. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be refunded to the subscriber.

Subscriptions should be renewed promptly: To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Correspondence concerning all business matters should be addressed to

*for the prothrombin
determinations you prefer,
you can always depend on*

DIFCO REAGENTS

1-STAGE TECHNIQUE of QUICK and LINK-SHAPIRO

BACTO-THROMBOPLASTIN, used according to the method of Quick, has demonstrated its accuracy and reliability for more than 20 years. Each box of six ampules is sufficient for 210 Quick determinations or 420 Link-Shapiro determinations.

BACTO-THROMBOPLASTIN is a stabilized, desiccated rabbit brain substance of high thromboplastin potency. It is used in all prothrombin time procedures with whole or diluted plasma. It is stable in either dry form or frozen extract.

2-STAGE CONCENTRATION TECHNIQUE of WARE and SEEGER'S

BACTO-PROTHROMBIN 2-STAGE REAGENT is a standardized, stabilized reaction mixture for use in the Ware and Seegers procedure for quantitative determination of prothrombin concentration. Bacto-AC Globulin Serum is prepared for use in this procedure.

Descriptive literature gladly sent upon request.
