THE JOURNAL OF IMMUNOLOGY

Contents for October

Lepromin and Tuberculin Reactivity in Adults Not Exposed to Leprosy. CHARLES C. SHEPARD AND EDWARD W. SAITZ .......................................................... 637

Sites of Synthesis of Serum Proteins. I. Serum Proteins Produced by Macrophages in Vitro. V. J. STECHER AND G. J. THORBECKE ................................................. 643

Sites of Synthesis of Serum Proteins. II. Medium Requirements for Serum Protein Production by Rat Macrophages. V. J. STECHER AND G. J. THORBECKE ............ 653

Sites of Synthesis of Serum Proteins. III. Production of $\alpha_4$, $\alpha_2$, and Transferrin by Primate and Rodent Cell Lines. V. J. STECHER AND G. J. THORBECKE .............. 660

Interaction of Rickettsiae and Phagocytic Host Cells. V. Phagocytic and Opsonic Interactions of Phase 1 and Phase 2 Coxiella burnetii with Normal and Immune Human Leukocytes and Antibodies. C. L. WISSEMAN, JR., PAUL FISET AND R. A. ORMESSEE ....................................................... 669

Immunoglobulin Isoantigens (Allotypes) in the Mouse. IV. Allotypic Specificities Common to Two Distinct Immunoglobulin Classes. NOEL L. WARNER AND LEONARD A. HERZENBERG ...................................................... 675

Immunoglobulins of the Leopard Shark. I. Isolation and Characterization of 17 S and 7 S Immunoglobulins with Precipitating Activity. ANITA A. SURAN, MARY HYDE TAKAI AND BEN W. PAPERMASTER .................................................. 679

Brevity of the Inductive Phase in the Immune Response of Mice to Capsular Polysaccharide Antigens. PHILLIP J. BAKER AND MAURICE LANDY .............................. 687

An Antigenic Determinant of Human XG-Globulin Susceptible to Papain Digestion. CHRISTOPHER S. HENNEY AND KIMISHIGE ISHIZAKA ........................................... 695

Suppression of Allogenic Rabbit Lymph Node Cells: Antigen-Bearing Cell Membrane Fragments and the Specifically Purified Suppressive Antibody. T. N. HARRIS, SUSANNA HARRIS, CLIFTON A. OGBURN AND MIRIAM B. FARRER .................................................. 703

Papain Fragments of Rabbit Anti-Leukocyte Antibodies: Effects in Relation to Some Serologic and Biologic Activities of the Antiserum. CLIFTON A. OGBURN, T. N. HARRIS AND SUSANNA HARRIS ................................................................. 713

Cytotoxic Antibodies in Rabbit Anti-Leukocyte Serum: Relation to Suppression of Transferred Lymph Node Cells. SUSANNA HARRIS, CLIFTON A. OGBURN AND T. N. HARRIS .................................................. 721

Immunochromic Studies of Foot and Mouth Disease. I. Complement Fixation Reactions with Isolated Antigenic Components. K. M. COWAN AND R. TRAUTMAN ............... 729

Correspondence of the Relative Cellular Distribution and Serum Concentration of Allelic Allotypic Markers in Normal and “Allotype-Suppressed” Heterozygous Rabbits. ZANA LUMMUS, JOHN J. CEBRA AND ROSE MAGE ............................... 737

Role of Macrophages in Antibody Production. Immune Response to Sheep Red Blood Cells. BERTIE F. ARGYRIS ................................................................. 744

Synthesis of Normal and “Immunogenic RNA” in Peritoneal Macrophage Cells. DAVID C. BISHOP, ANTHONY V. PISCIOTTA AND PETER ABRAMOFF ........................................... 751

Secondary Antibody Responses in Haptenic Systems: Cell Population Selection by Antigen. WILLIAM E. PAUL, GREGORY W. SISKIND, BARUJ BENACERRAF AND ZOLTAN OVARY ................................................................. 760

Interferon in Congenital Rubella: Response to Live Attenuated Measles Vaccine. JAN DESMYTER, WILLIAM E. RAWLS, JOSEPH L. MELNICK, MARTHA D. YOW AND FRED F. BARKETT ................................................................. 771

Reactions of Newcastle Disease Virus with Infectious Mononucleosis Sera in Agar Gel. ALMEN L. BARRON, ARTHUR FRIEDMAN AND FELIX MILGROM ......................... 778

Contents continued on next page

Cross-Reactions of the Group-Specific Polysaccharides of Streptococcal Groups B and G in Anti-Pneumococcal Sera with Especial Reference to Type XXIII and Its Determinants. Michael Heidelberger, Joseph M. Davie and Richard M. Krause ................................................................. 794

The Effect of ε-Aminocaproic Acid on Antigen-Antibody Reactions. Richard T. Wold, Robert T. Reid and Richard S. Farr .......................................................... 797

Mixed γG-γM Cold Agglutinin. Leonard S. Goldberg and Eugene V. Barnett .... 803

Two Serologically Distinguishable Subclasses of μ-Chains of Human Macroglobulins. Edward C. Franklin and Blas Frangione ....................................................... 810

A New Serum Factor in Normal Rabbits. III. Specificity for Antigenic Determinants Uncovered by Papain or Pepsin Digestion. William J. Mandy ..................... 815

Biologic Properties of a Non-Precipitating Antigen from Timothy Pollen Extracts. Arthur Malley and Raymond L. Harris, Jr. ....................................................... 825

Characteristics of Antibody Response in Young or Thymectomized Mice. Kenji Takeyia and Kikuo Nomoto ................................................................. 831

Announcement: Communications .................................................. 837

THE JOURNAL OF IMMUNOLOGY

Information for Subscribers

Published monthly, beginning January, 1929. (From 1918-1925, and in 1928 Volumes I-X inclusive, and Vol. XV published bi-monthly.)

The subscription price is $28.00 per year in U.S.A.; $29.25 in Canada; $30.00 elsewhere. Single copies, when available, are $2.75 in U.S.A.; $3.00 elsewhere. The subscriptions of members of the American Association of Immunologists are included in the membership dues and are handled by the Association's Treasurer, Dr. Sheldon Dray, American Association of Immunologists, 9650 Rockville Pike, Bethesda, Md. 20014. All other subscriptions should be sent to the publishers.

Change of address: Publisher must be notified 60 days in advance. Journals undeliverable because of incorrect address will be destroyed. Duplicates can be obtained (if available) from the publisher at the regular price of single issues.

New subscriptions and renewals are entered to begin with the first volume of the year when subscription is received. Should any issue of the current volume be out of print at the time the subscription order is received, the pro-rata value of such numbers will be refunded to the subscriber.

Subscriptions should be renewed promptly: To avoid a break in your series, subscriptions should be renewed promptly. The publishers cannot guarantee to supply back issues on belated renewals.

Correspondence concerning all business matters should be addressed to
